# Product Pricing

**DSD**  
BUSINESS SYSTEMS

We know your world.

# Testimonials

*"We have dealt with DSD for at least 10 years (custom work as well as their off the shelf add-ons like multi currency etc.) and have always had spectacular service from Jon Reiter, Lisa Buchner and Ron Black on all fronts from the initial pre-sales, to demo, to purchase, to after-sales support and upgrades. We have nothing but the best to say of them and given a choice of Master Developers, we would choose DSD over anyone else Sage has on the list. If there were a 10+ category in the above, I would have selected that!"*

**Shabnam Munjal**  
**Munjal White Consulting Corp.**

*"I was first introduced to DSD Business Systems back in 1988 by another consultant who recommended DSD as the "go to" folks for custom enhancements and programming. Ever since our first project together, DSD Business Systems is the only developer that I recommend to anyone. We've never used (or thought of using) another developer for a custom project in over 20 years."*

**Wayne Schulz**  
**Schulz Consulting**

*"We've worked with DSD for the past 10 years and have always received excellent solutions and customer service."*

**Minh Tram**  
**Arxis Technology, Inc.**

*"DSD has earned a respected reputation for over 25 years of exceptional customer support and industry expertise. DSD is an outstanding, industry-acclaimed business partner, and we are proud of their Gold Development Partner status in our ISV Program. We look forward to future solutions that DSD Business Systems will offer to Sage customers and partners."*

**Alan Bryant,**  
**Senior Vice President**  
**ISV Programs and Developer Relations**  
**Sage Business Management Division**

## NOTES:

### **Annual Maintenance**

All new purchases include the first year of software maintenance and support. The subsequent annual maintenance renewal cost covers all software upgrades and support.

## Extended Solutions Pricing FAQs

---

### How is DSD Business Systems pricing new sales of Extended Solutions?

The DSD Extended Solutions Price Sheet shows the following columns:

SRP - This is the Suggested Retail Price for a new purchase of an Extended Solutions, and it includes 1<sup>st</sup> years Maintenance. This is also the price that is displayed on the DSD Business Systems website, [www.dsdinc.com](http://www.dsdinc.com).

SRP Subsequent Years Maintenance - This is This is the Suggested Retail Price to renew a Maintenance Plan of an Extended Solution in subsequent years. This is also the price that is displayed on the DSD Business Systems website, [www.dsdinc.com](http://www.dsdinc.com).

### How is DSD Business Systems pricing upgrades of Extended Solutions?

For end-users that already own an Extended Solution for MAS 90/200 Version 4.30 and below, they can purchase the 4.40 version of that enhancement from DSD Business Systems for the price of a Maintenance Plan PLUS a Jump Fee. The Jump Fees range in price by product. When pricing an upgrade of an Extended Solution, add the SRP Subsequent Years Maintenance column to the Jump Fee column.

### What is a Jump Fee?

The Jump Fee is a one-time fee to upgrade an existing Extended Solution to Version 4.40+. The Jump Fee price is based on the development cost of upgrading (or rewriting) the product to Version 4.40, divided by the estimated number of users that currently have that product.

### What is a Jump Fee Credit?

For resellers or end-users that pay DSD a Jump Fee, [they will receive a dollar-for dollar Jump Fee Credit](#), to be used toward the purchase of other DSD Products (excluding Maintenance Plans). These DSD Products include:

- Any DSD Classic Enhancement, such as Multi-Currency, SQL Mirroring, Magnetic Media, etc.
- Any DSD Extended Solution that has a \$0 Jump Fee.
- Any DSD Extended Solution that has a Jump Fee AND is already released by DSD.

**Restrictions:** The Jump Fee Credit may not be applied toward a Maintenance Plan. For example, if a reseller/end-user pays a Jump Fee, and they want to apply that credit towards a new purchase of another DSD Product, then that reseller/end-user has to pay for 1<sup>st</sup> years Maintenance of the new product. The Jump Fee Credit may not be applied toward other Jump Fees.
