SAN DIEGO, CA - March 12, 2009 – DSD Business Systems, San Diego’s leading provider of enterprise software solutions, announced today that it has been accredited by the San Diego Better Business Bureau with a distinguished A+ Grade. The BBB issues letter grades that range from A+ to F and appear on many of the BBB’s Reliability Reports which rate more than 101,000 local businesses. DSD’s A+ Grade reflects the Better Business Bureau’s degree of confidence that it operates business in a trustworthy manner. Accredited businesses are reviewed and monitored to ensure they adhere to the BBB Code of Business Practices and abide by the BBB Standards for Trust.

The San Diego BBB’s new letter grading system, which replaces the previous scale of “satisfactory” and “unsatisfactory,” is part of a nationwide changeover by the international BBB network of 125 local bureaus in the U.S. and Canada. Sheryl Bilbray, San Diego BBB President/CEO, said, “A company’s A+ through F letter grade is determined by 16 weighted factors that are most influenced by complaint history that has been verified and evaluated by BBB professionals. Grades also are determined by how long the business has been operating and whether it has the appropriate licensing standards.”

Doug Deane, President and Founder of DSD Business Systems, said, “Given today’s tough economic conditions, businesses and consumers can’t afford to make bad buying decisions. We want our business partners and customers to feel assured and confident when they work with DSD. This will allow them to make better-informed decisions on where to spend their hard-earned money. Our decision to participate in the BBB accreditation process and undergo the BBB’s comprehensive grading system reflects DSD’s commitment to our business partners and customers. This rating by the BBB is proof that DSD ‘walks the walk’ when it comes to our ethics and our integrity.” To view DSD’s rating with the BBB, click here: www.bbb.org.

ABOUT DSD BUSINESS SYSTEMS

Founded in 1984, headquartered in San Diego, California, DSD Business Systems is a national award-winning Enterprise Software Solutions Provider. Serving the needs of small- to medium-sized companies, we specialize in a service-oriented approach to integrating accounting and business management systems with information technology. By automating our customers’ business processes, we help growth-oriented companies turn disconnected data into reliable information. DSD’s success extends beyond system integration – from network configuration, hardware, and technical support to web development, search engine optimization, and system security. DSD has been a Sage President’s Circle award winner for thirteen consecutive years and has been nationally recognized by Accounting Technology Magazine as a Technology Pacesetter and Top 100 VAR firm.
