Section A: Introduction

This manual contains a description and instructions for this DSD product. Operating instructions are included for the features added by this product to MAS 90/200. For instructions on using MAS 90/200, refer to the appropriate MAS 90/200 manual, or call your MAS 90/200 reseller. DSD Business Systems offers excellent MAS 90/200 support, at an hourly rate.

Web Resources

DSD web site: <http://www.dsdinc.com>

The Enhancement page contains:

- Current Release Schedule*
- Purchasing Information*

Support

DSD provides product support through MAS 90/200 resellers. Support is provided for the current version. Older versions are supported at an hourly rate. DSD's telephone number is **858-550-5900**. Fax: **858-550-4900**.

For a hard error, where the program displays an error dialog, report:

- Error number.*
- Program name.*
- Line number.*
- Program version.*

*Exact sequence that caused the error, including menus and menu selections.
Other pertinent information.*

If leaving a message or faxing, please include:

Your name.

Your phone number (and fax if applicable) and extension.

It is possible to be unable to duplicate a problem, because of data corruption or because we have not exactly duplicated a particular operating environment. In such circumstances, we can only continue to try to fix the problem if we can either access the system with Symantec PCAnywhere or by some other means access or duplicate the system.

Multiple Sales Orders on Single Invoice Features

This Extended Solution enables one sales order invoice to be created containing line items from multiple sales orders which reference the same customer number.

Additional functionality is available if Extended Solution SO-1066: *Subtotals/Running Totals on Orders and Invoices* is installed, if the Custom Office module is activated, and if Sales Order Option 'Integrate with Job Cost' is checked.

This Extended Solution is not compatible with the Credit Card processing module.

Section B: Getting Started

CAUTION

- **If you reinstall or upgrade one of the MAS 90/200 modules listed in the following table, you must also reinstall this Enhancement.**
- Enhancements from different Sage Developers are generally not designed to work together. If installed together, problems are likely to occur.
- **Check with DSD before installing more than one Enhancement.**
- **Do not install this Enhancement on MAS SQL Systems.**

Required Levels

MAS 90/200 Module	Module Required	Required Level
S/O	Y	4.40
I/M	Y	4.40

Installation

The following instructions are for installing to Windows. For UNIX instructions see the "INSTALL.HTM" HTML file on the CD-ROM (you can use a Windows machine to view it.) It will guide you in mounting the CD-ROM on the UNIX file system and running a UNIX installation script.

1. **Back-up:** Exit all MAS 90/200 sessions. Back-up existing MAS 90/200 data.
2. **Check Levels:** MAS 90/200 module levels **must match** those listed above.
3. **Run Enhancement Setup Program:** Save the executable installation program (sent to you or downloaded from our website) in a convenient location on the MAS 90/200 server. Launch the program from Windows Explorer or by selecting Start/Run, then browse for the file in the location you saved it. Follow on-screen instructions.
4. **Re-Start MAS 90/200:** MAS 90/200 will be updated.
5. **Unlock the Enhancement:** DSD Enhancements must be unlocked to run. When any part of the Enhancement is run for the first time, the **DSD Enhancement License Agreement and Activation** window will appear. Follow the steps shown on that window. *You can click the Help button for more detailed instructions.*

Note: On the next page is a screenshot of the DSD Enhancement License Agreement and Activation window.

After accepting the License Agreement, you can then select the type of unlocking that you'd prefer. The choices are Normal, Demo and Web.

Normal Unlock: You will need to unlock the Enhancement by calling DSD during business hours (8am to 5pm PST) at **858-550-5900**.

Web Unlock: If the system that is running the DSD Enhancement *has web access* and you *have a DSD WebUnlock code*, you can unlock the Enhancement without assistance using WebUnlock. When this option is selected, the window will change to show the WebUnlock entry section. Enter the WebUnlock code and click the Unlock button.

- *Entering a WebUnlock code will unlock all DSD Enhancements that have been licensed.*
- *The MAS 90/ 200 system that is being used must have web access for this option to be available.*
- *You can get a WebUnlock Code from your DSD Enhancements sales representative.*

Demo Unlock: If a Demo mode is available for the Enhancement you're running, you will be able to Demo unlock the product without assistance from DSD for demo purposes.

- *Creating a Demo Unlock is a good way to temporarily unlock DSD Enhancements off-hours, if you do not have web access and/or a WebUnlock code. Later, you can unlock the product fully, during business hours.*

Note: You can also unlock a DSD Enhancement through the **DSD Enhancement Control Panel** found on the Library Master Utilities Menu. Then, select the Enhancement with your mouse from the list of Enhancements and click the **Unlock Product** button on the right side of the window.

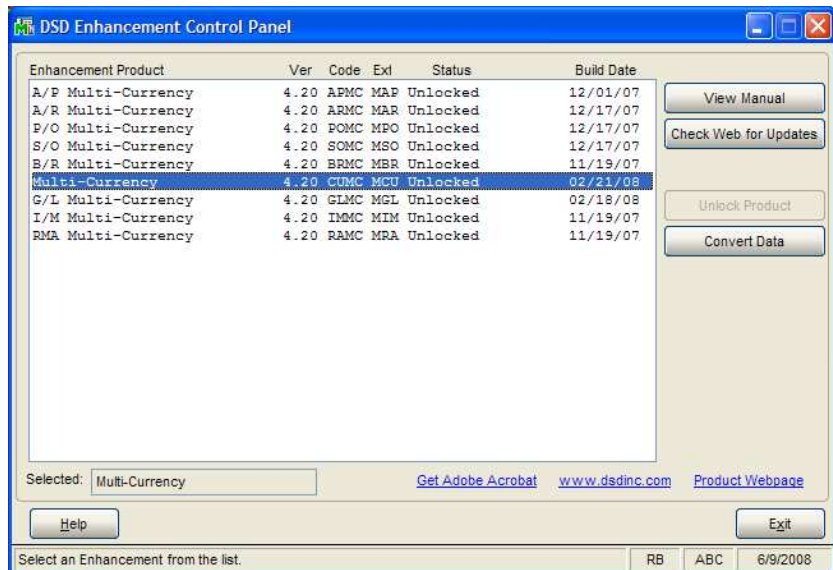

6. **Convert Data:** After registration, the Data Conversion window will appear. Follow on-screen instructions to complete data conversion. *You can exit the conversion program without converting data. The Enhancement will not proceed, however, until data is converted. If you enter an enhanced program and data has not been converted, the conversion program will run again.*

DSD Enhancement Control Panel

Starting with version 3.61, all DSD Enhancement products include DSD's Enhancement Control Panel. The **DSD Enhancement Control Panel is accessed from the Library Master Utilities menu.**

The DSD Enhancement Control Panel is a simple to use yet powerful system to help maintain DSD Enhancements installed on a MAS 90/200 system. To use it, select an Enhancement product from the list on the window and then click the button, on the right side of the window, which corresponds with the desired task.

View Manual: This button will display the product manual for the selected Enhancement using Adobe Acrobat. For this to be possible, the PDF file for the corresponding manual must be in the "MAS90/PDF" folder in the MAS 90/200 system. If the file is not present, and the system has web access, the correct PDF file will be automatically downloaded from the DSD website, put into the "MAS90/PDF" folder and then displayed.

Check the Web for Updates: This button will check the DSD website to see what the current build is the selected Enhancement and alert the user if a later version is available. *This requires an ftp web connection on the MAS 90/ 200 system.*

Unlock Product: This will cause the DSD Enhancement License Agreement and Activation window to appear. Using this window is described on the previous page. *This button is disabled if the selected Enhancement is already unlocked.*

Convert Data: After verification, the selected Enhancements data conversion program will run. Data conversion is non-destructive, and may be triggered any number of times. Sometimes this is required to fix data records imported or updated from a non-enhancement installation.

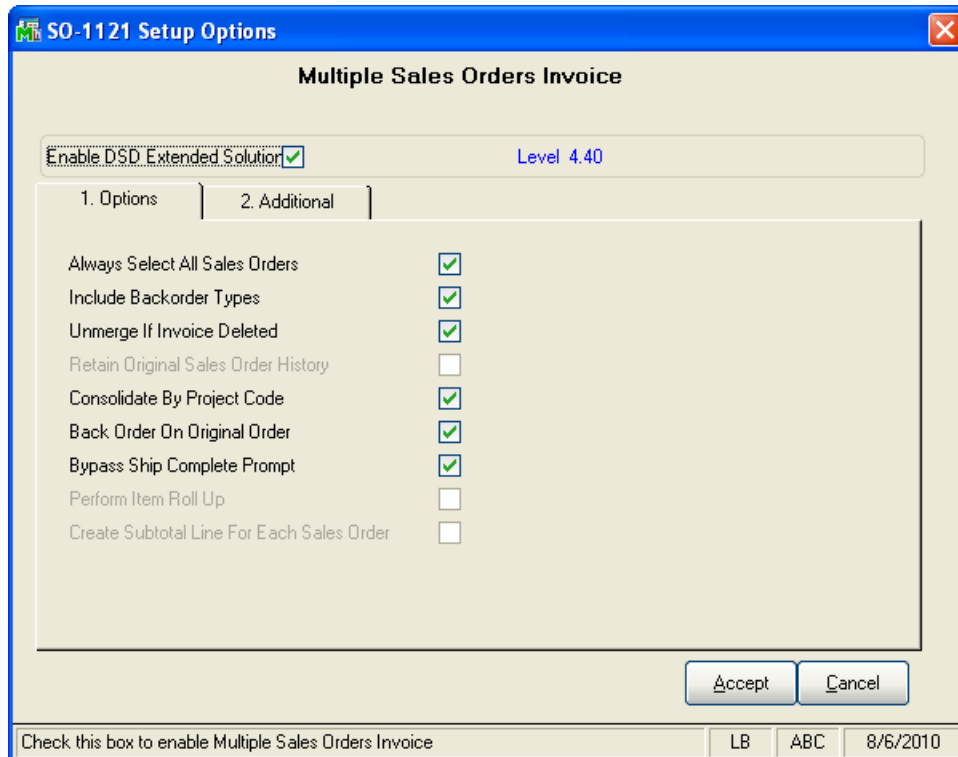

Help: The Help button, located at the bottom left of the window, opens an HTML help file .

Get Adobe Acrobat: Opens the Adobe Acrobat website to the page where Acrobat can be downloaded and installed.

There are also links to the DSD website and the Enhancement page on that site.

Section C: Setup

Upon completion of software installation, you will need to access DSD Extended Solutions Setup from the Sales Order Setup menu. Select this part number and the Setup screen for this Extended Solution will appear. Check the 'Enable Extended Solution' box to activate this Extended Solution.

Answer the following prompts on the 1. Options tab:

Always Select Sales Orders: Check this box if you want all Sales Orders for the particular customer to be selected. You will be required to de-select any orders you do not want to invoice. Uncheck this box if you want to manually select the orders to invoice.

Include Back Orders: Check this box to include Back Order type Sales Orders in the consolidation. Leave the box unchecked if you do not want to include Back Orders.

Unmerge If Invoice Deleted: If you check this box, when an invoice in the data entry batch is deleted, all Sales Orders that were merged into the invoice will be returned to their original state and will appear as they did before the 'Multiple Orders on a Single Invoice' process was performed. Uncheck this box if you do not want to use this option.

Note: There is no ability to 'unmerge' individual Sales Orders from the Invoice.

The following option is only available when 'Unmerge if Invoice Deleted' is unchecked and 'Retain Sales Order/Quote History' has been enabled in the Sales Order module:

Retain Original Sales Order History: When checked, consolidation will not occur in Sales Order History; all orders will appear as they were prior to consolidation. If unchecked, then original orders are removed from history and only the consolidated order is retained.

Consolidate by Project Code: If you check this box, you will be prompted to enter a Custom Office S/O Header UDF to hold the Project Code and a Custom Office A/R Customer UDF to hold the Invoice Cycle (see below). During the Standard MAS 90 MAS 200 Auto Generate Invoice Selection process, one invoice will be created for each customer, based on the selection criteria, for each project code (see Operations below).

Back Orders on Orig Order: This option is only available if you checked the 'Unmerge If Invoice Deleted' box above. If you check this box then during the Sales Journal Update, line items on the Consolidated Order with a positive value in the Quantity Back Ordered field will be written back to their original Sales Order number as if no consolidation had taken place.

The following added support occurs for Sales Order history files if in Sales Order Setup you selected the 'Retain Sales Order/Quote History' option in the Sales Order module:

- If you check the box 'Back Orders on Original Order' above, then the Sales Order history files will remain unchanged. When the Consolidated Order is unmerged during the update process, each of the unmerged orders will update its respective Sales Order history file.
If you do not check the box 'Back Orders on Original Order,' the Sales Order History files are deleted for the merged orders and the detail is added to the consolidated Sales Order. All associated files are updated to reflect these changes.

Bypass Ship Complete Prompt: Check this box to go directly to the lines screen as though you had answered 'Yes' to the 'Ship Complete Sales Order' prompt.

The following option is only available when 'Unmerge if Invoice Deleted' is unchecked:

Perform Item Roll Up: When checked each instance of an item will appear only once on the consolidated Invoice, with its quantities incremented.

If Sage Software Extended Solution SO-1066: *Subtotals/Running Totals on Sales Orders and Invoices* is installed and enabled, the following option will be available:

Create Subtotal Line for Each Sales Order: Check this box to create a subtotal line for each Sales Order.

SO-1121 Setup Options

Multiple Sales Orders Invoice

Enable DSD Extended Solution Level 4.40

1. Options | 2. Additional

S/O Hdr UDF for 'No. of Orders Merged'	NO_ORDERS_MERG	No Orders Merged
S/O Hdr UDF for 'List of Sales Orders'	LIST_OF_SALESOR	List Of Sales Orders
S/O Hdr UDF for 'Project Code'	PROJECT_CODE	Project Code
A/R Customer UDF for 'Invoice Cycle'	INVOICE_CYCLE	Invoice Cycle
S/O Dtl UDF for 'Sales Order Date'	SALES_ORDER_DA	Sales Order Date
S/O Dtl UDF for 'Customer PO No.'	CUST_PD_NO	Cust PO No
S/O Dtl UDF for 'Sales Order No.'	SALES_ORDER_NO	Sales Order No
S/O Dtl UDF for 'Sales Order Comment'	SALES_ORDER_CO	Sales Order Com

Accept Cancel

LB ABC 8/6/2010

If you have the Custom Office activated you will have access to the following prompts on the Additional tab. None of these fields are required:

S/O header UDF for 'No. of Orders Merged': Specify the numeric type Sales Order Header UDF which will hold the total number of orders merged.

S/O header UDF for 'List of Sales Orders': Specify the string type uppercase Sales Order Header UDF which will hold the list of sales orders merged. Each sales order will be separated by a comma and will contain as many sales orders as will fit in the UDF.

S/O Header UDF for 'Project Code': Specify an 8 character, string type uppercase Sales Order Header UDF which can be used as a secondary consolidation value after customer number.

A/R Customer UDF for 'Invoice Cycle': Specify a 1 character, string type uppercase A/R Customer UDF for invoice cycle.

S/O Dtl UDF for Sales Order Date: Specify a date type Sales Order Detail Line UDF which will hold the Sales Order Date from the originating order.

S/O Dtl UDF for 'Customer PO No.': Specify a 15 character string type uppercase S/O Detail UDF which will hold the Customer Purchase Order Number from the originating order.

S/O Dtl UDF for 'Sales Order No.': Specify a 7 character string type uppercase S/O Detail UDF which will hold the originating Sales Order Number.

S/O Dtl UDF for 'Sales Order Comment': Specify a 30 character string type uppercase S/O Detail UDF which will hold the Sales Order Header Comment from the original sales order.

For all of the Sales Order Header and Sales Order Detail UDFs noted above, you should set up corresponding Sales Order Invoice and A/R Invoice History UDFs as well.

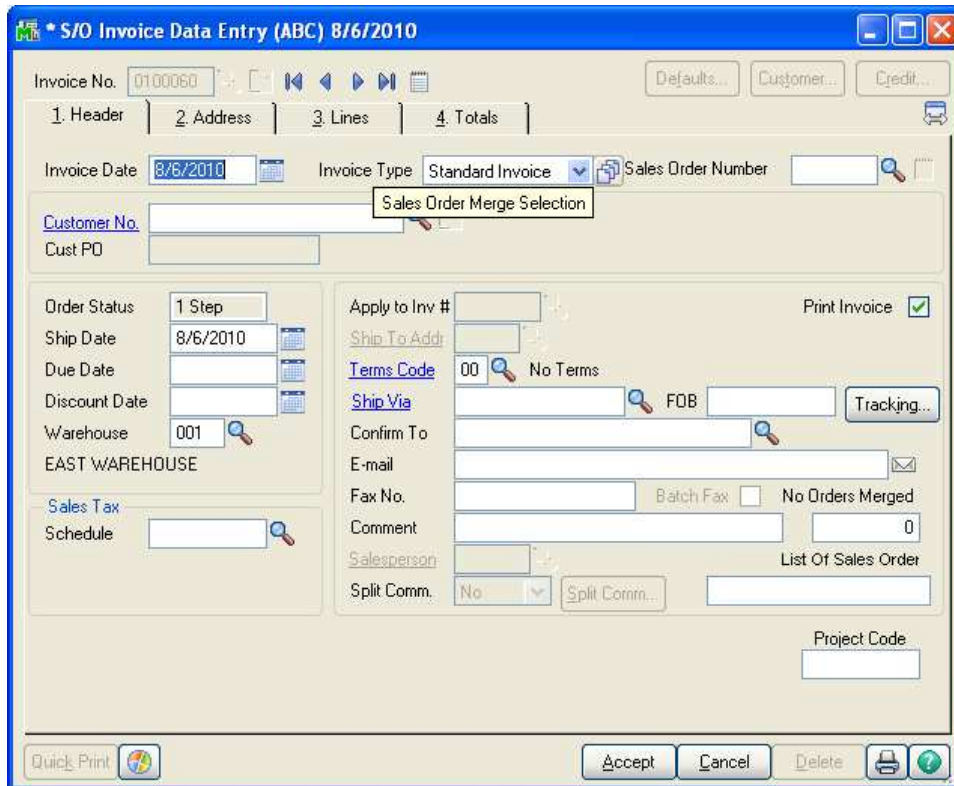

'Sales Order Merge Selection' button is not accessible for Credit and Debit Memo processing. Only Standard and Cash Sales Invoices are allowed.

You should visit this Setup screen after each upgrade or reinstallation of this Extended Solution.

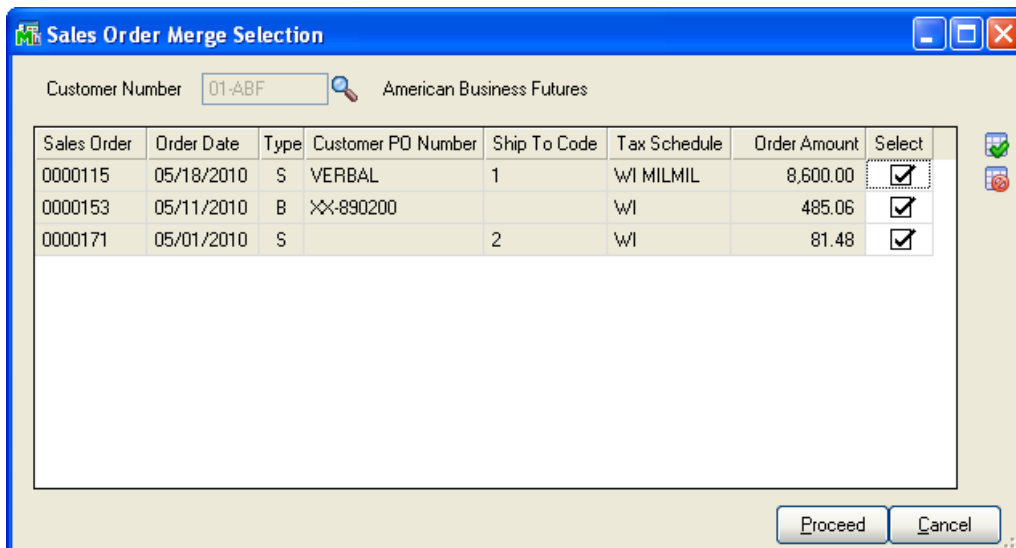

Section D: System Operations

Sales Order Invoice Entry

A 'Sales Order Merge Selection' button has been added to the left of the Sales Order Number field in Sales Order Invoice Entry.

Click this button to access Sales Order Selection Merge where you will be prompted for a Customer Number.

After a Customer has been selected, this Extended Solution will list all of the Customer's Sales Orders that meet the following requirements:

- The Sales Order type is 'Standard' (or 'Back Order' if selected in Setup).
- The Sales Order status is either 'New' or 'Open.'
- The Sales Order is not already being invoiced
- The Sales Order is not a consolidated order.

The grid contains the following display only columns: Sales Order Number, Order Date, Type*, Customer PO Number, Ship To Code, Tax Schedule, Order Amount, Job Number (see below) as well as a data enterable checkbox column for Select. Any order can be selected by checking the check box. Click the 'Select All' button to check all the boxes and click the 'Deselect All' button to unselect all the boxes. Click the 'Proceed' button when finished selecting orders. The following process occurs during the invoicing process:

- The lowest Sales Order Number will serve as the 'consolidated order.' The constant information from this Order's header and total screens will be used.
- Each additional selected Order will have its lines section appended to the 'consolidated order'; unless you checked 'Item Roll Up'. With Item Roll Up, each instance of an item will appear only once. The Warehouse and Unit Price associated with the first instance will be used and the quantities ordered and shipped will be incremented as lines from other orders are added during the consolidation process.
- The header and total constant information from the merged orders is discarded.
- After the lines have been appended, all selected Orders except the 'consolidated order' will be deleted.
- A standard Sales Order Invoice will be created from the 'consolidated order,' which now contains all selected Order lines, along with the constant data from the 'consolidated order.'

*Type is only displayed in the grid if 'Include Backorder Types' is checked in Setup.

**The Job Number column is only displayed when the Sales Order Option to 'Integrate with Job Cost' is checked.

Note: You may not want to combine orders with different constant header and total data, such as Order Type, Ship-To Code and Tax Schedules as this information is discarded for all orders except the 'consolidated order.'

If a merged Invoice is deleted and you checked the box to 'Unmerge if Invoice Deleted' in setup, then all Sales Orders that were merged into the invoice will be returned to their original state and will appear as they did before the 'Multiple Orders on a Single Invoice' process was performed.

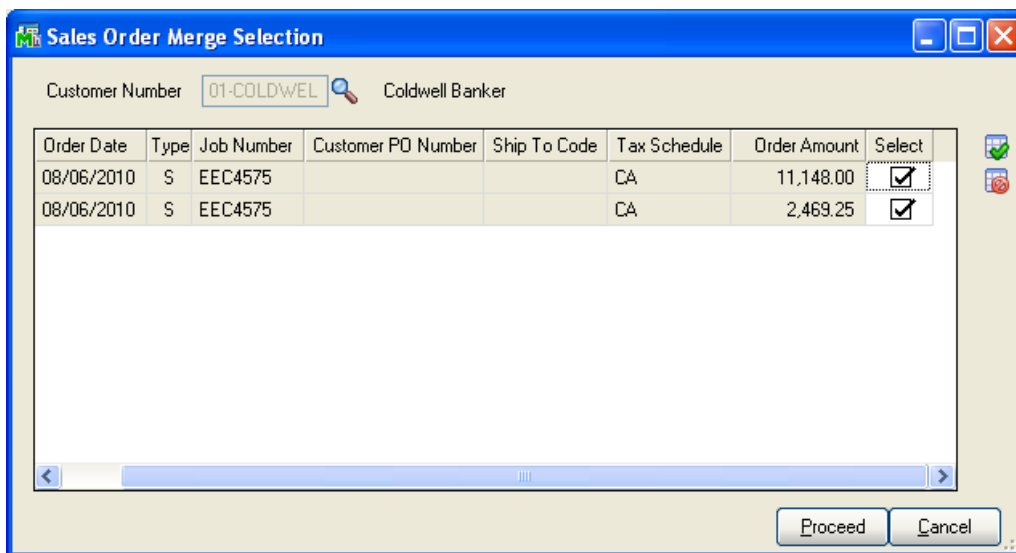

If a merged invoice is deleted and you did not check the box 'Unmerge if Invoice Deleted', then all of the merged lines will remain on the consolidated merged order. This order may not be used for future consolidation. You can, however, use this order to create an Invoice per Standard MAS90 Invoice processing.

If you specified Custom Office Detail UDFs to store the Sales Order Number, Order Date, Customer P/O Number, and S/O Header Comment this data will be written to the lines as part of the order consolidation process.

The Sales Order Numbers being consolidated can be placed into the Custom Office UDF specified in Setup. It is possible to consolidate more sales orders than will fit into the UDF defined in Setup. In this case, the Sales Order Numbers beyond the limit will not be recorded.

Sales Order Integrated with Job Cost

If the Sales Order option 'Integrate with Job Cost' is checked, Sales Order Merge Selection will contain a column for Job Number. Only orders with matching Job Numbers can be consolidated. Any selected orders which reference Job Numbers other than the one on the consolidating order will be skipped.

With SO-1066

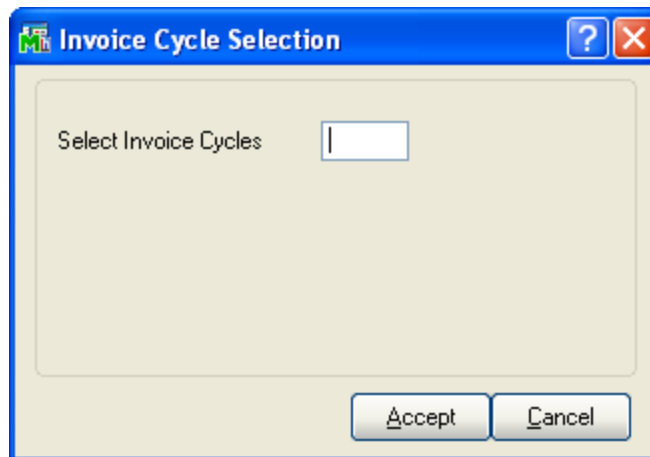

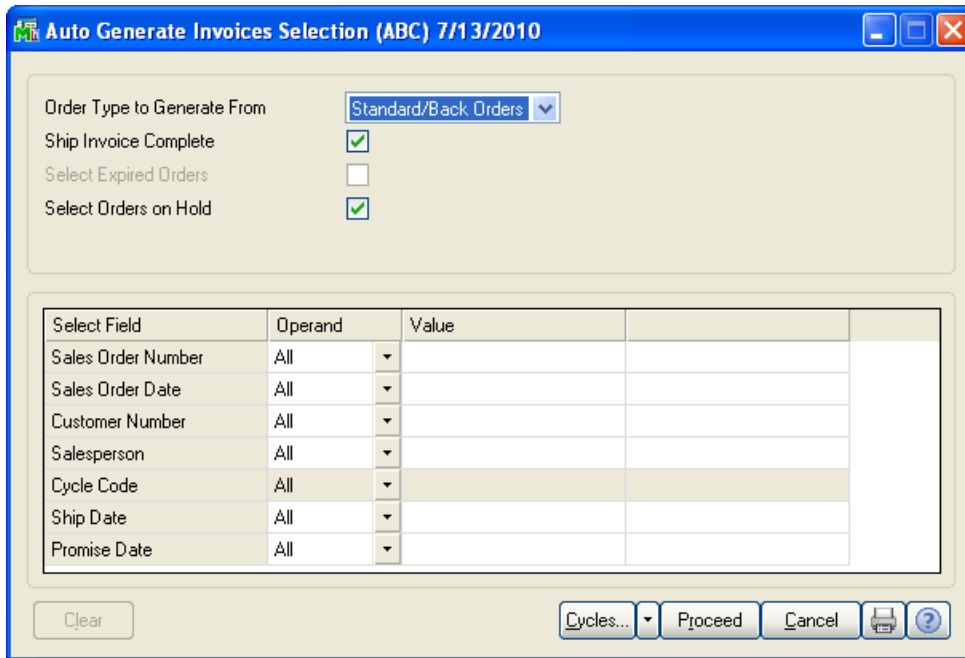

During Sales Order Consolidation, if you checked the Setup option 'Create Subtotal Line for Each Sales Order' and SO-1066: *Subtotals/Running Totals on Sales Orders and Invoices* is installed and enabled this Extended Solution will check SO-1066 Setup for 'Comment Code for Sub Total'. If found, SO-1121 will insert the comment line after last line for each sales order merged into consolidated order. After the last sales order is merged, it will check SO-1066 Setup for 'Comment Code for Run Total' and if found SO-1121 will insert that comment line as the last line on the consolidated order.

Auto Generate Invoices Selection, Consolidation by UDF

If you checked the 'Consolidate by Project Code' box in Setup, one invoice will be created for each customer (based on the selection criteria) for each S/O Header UDF noted in Setup to hold the 'Project Code'. Since the Project Code field is optional, an invoice can be created for the Customer whose Sales Orders have a blank Project Code. This option does not change the consolidation process from the invoice entry header screen, only from the Auto Generate Invoice Selection screen.

Auto Generate Invoices Selection, Invoice Cycles

Auto Generate Invoice Selection has a new button, 'Cycles...' . Click it and you will be presented with the Invoice Cycle Selection screen where you can define up to 5 Invoice Cycles (A/R Customer UDFs) in a list without commas, or you can leave it blank to select 'All'. Only those orders for customers who have the indicated Invoice Cycles value in the setup specified Customer UDF will be selected for invoicing.

Merge Orders During Auto Generate Process

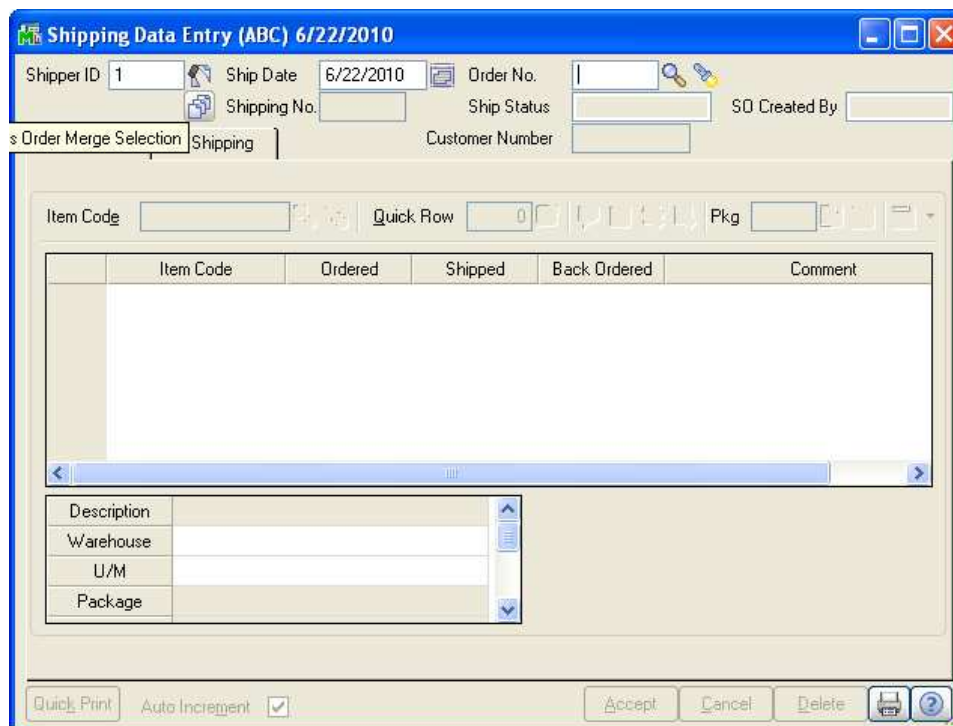

After printing the Selection Register and answering 'Yes' to update selections, you will be prompted to 'Do you want to merge sales orders? (YES/NO)'. If you answer 'YES,' the selected Orders will be consolidated for each unique Customer Number (and Project Code if selected) before the invoices are created.

Shipping Data Entry

The Sales Order Merge Selection' button has also been added to the left of the 'Shipping No.' field on the Shipping Data Entry screen. It functions in the same manner as described above for S/O Invoice Data Entry.

Orders combined into a single Shipping Invoice in Shipping Data Entry will also be unmerged if the 'Unmerge if Invoice Deleted' option was checked during setup.

Sales Order History

If you have elected to retain Sales Order/Quote History, what data is written to history is impacted by how you answer these three questions:

- Unmerge if Invoice Deleted
- Retain Original Sales Order History
- Back Orders on Original Order

If the questions are answered in this manner

- Unmerge if Invoice Deleted = **Yes**
- Retain Original Sales Order History = **N/A**
- Back Orders on Original Order = **Yes**

You will get this result:

Sales Order/Quote history retains each individual order's record on file even after the Sales Journal Update. If all of the lines of any individual order shipped complete, its history record will show Complete.

If any of the lines were back ordered on a merged order, the originating order's record remains in active status with its back ordered lines.

If the questions are answered in this manner :

- Unmerge if Invoice Deleted = **Yes**
- Retain Original Sales Order History = **N/A**
- Back Orders on Original Order = **No**

You will get this result (which may differ from pre-framework results):

Only the consolidated order will exist in history, Sales Order/Quote history will have no individual order record. A consolidated order shipped complete will show as "Complete" in history. A consolidated order not shipped complete will exist in history as "Active" and will have the B/O lines.

If the questions are answered in this manner:

- Unmerge if Invoice Deleted = **No**
- Retain Original Sales Order History = **Yes**
- Back Orders on Original Order = **N/A**

You will get this result (which may differ from pre-framework results):

If the consolidated order shipped complete, all lines will be retained on the consolidated order and it will be marked "Complete". The remaining individual orders will retain their lines, but show as "Deleted".

If the consolidated order did not ship complete, it will contain all of the back ordered lines regardless of which order it originated from. All lines will be retained on the consolidated order, the remaining individual orders will retain their lines, but show as "Deleted".

If the questions are answered in this manner:

- Unmerge if Invoice Deleted = **No**
- Retain Original Sales Order History = **No**
- Back Orders on Original Order = **N/A**

The Sales Order History file has only the consolidated order on file.

Section E: Uninstall DSD Enhancements

A DSD Enhancements Uninstall Utility has been provided for the purposes of removing DSD Enhancements from your MAS 90/200 System. This utility may be accessed from the **DSD Enhancement Control Panel** menu option on the **Library Master / Utilities** menu.

When accessing the **DSD Utility Suite**, select the enhancement that you wish to Uninstall, and then select the **Uninstall Enhancement** button. The following message box will appear:

Select **No** to exit the Uninstall Process.
 Select **Yes** to continue with the Uninstall Process.

The following message box will appear, to remind you that a complete backup of your entire MAS90 system should be completed prior to uninstalling a DSD product.

Select **No** to exit the Uninstall Process.
Select **Yes** to continue with the Uninstall Process.

After the Uninstall of the DSD Enhancement, you MUST reinstall certain standard MAS 90/200 modules, followed by reinstallation of MAS Service Packs / Updates, if applicable.

The following message box will appear, and will display which of those specific MAS 90/200 modules you must reinstall afterwards.

Select **No** to exit the Uninstall Process.
Select **Yes** to continue with the Uninstall Process.

The following message box will appear, displaying the final warning message.

Select **No** to exit the Uninstall Process.

Select **Yes** to continue with the Uninstall Process. At this point, the DSD Enhancement will be removed from the MAS 90/200 system.

After completion of the Uninstall, the following message box will appear. Select OK to continue.

Now that the Uninstall process is completed, you must:

- Reinstall the applicable standard MAS 90/200 modules
- Reinstall the latest MAS 90/200 Service Pack/Updates, if applicable.
- Reinstall any other DSD Enhancements or Developer products that are affected from the reinstallation of the standard MAS 90/200 module(s).

License Agreement

IMPORTANT: THIS SOFTWARE IS LICENSED BY DSD BUSINESS SYSTEMS, INC. TO CUSTOMERS FOR THEIR USE ONLY IN ACCORDANCE WITH THE TERMS SET FORTH IN THIS CUSTOMER LICENSE AGREEMENT. OPENING OR USING THIS PACKAGE CONSTITUTES ACCEPTANCE OF THESE TERMS. IF THE TERMS OF THIS LICENSE ARE NOT ACCEPTABLE, THE CUSTOMER MAY OBTAIN A FULL REFUND OF ANY MONEY PAID IF THIS UNUSED, UNOPENED PACKAGE IS RETURNED WITHIN TEN (10) DAYS TO THE DEALER FROM WHICH IT WAS ACQUIRED.

1. **LICENSE. DSD BUSINESS SYSTEMS, INC.,** a California corporation as Licensor and owner hereby agrees to grant you as Licensee a non-exclusive license to use the enclosed software subject to the terms and restrictions set forth in this License Agreement. Title in and ownership of all programs and program enhancements or modifications written by DSD Business Systems, Inc. shall remain at all times vested in DSD Business Systems, Inc. The right granted by this Customer License Agreement and your payment of the non-refundable License fee is the right to use the Program in accordance with the terms of this Customer License Agreement. Delivery of a copy of the Program to you is made solely to enable you to exercise this right.
2. **COPYRIGHT.** This Program is copyrighted and all rights are reserved by DSD BUSINESS SYSTEMS, INC. and SAGE, INC. You may not copy or reproduce any part of the Program except to copy the Program for backup purposes. If you make a backup copy you must reproduce and include the copyright notice on it. The distribution of the product is intended for the use of the original Licensee only and for use only on the computer systems specified. Lawful users of this Program are hereby licensed only to read the Program from its medium into the memory of a computer only for the purpose of executing the program.

The documentation is also copyrighted and all rights are reserved. This document may not, in whole or in part, be copied, photocopied, reproduced, translated, transmitted or reduced to any electronic medium of machine readable form without prior consent, in writing, from DSD BUSINESS SYSTEMS, INC.

The Licensee recognizes that DSD BUSINESS SYSTEMS, INC. has expended considerable time, effort and money to develop the licensed Software and Manual and that DSD BUSINESS SYSTEMS, INC. will be substantially damaged by its unauthorized use, sale or distribution. In addition to recovery of all damages and the obtaining of injunctive relief as provided by law, in the event legal action must be taken to enforce this provision, the Licensee will pay DSD BUSINESS SYSTEMS, INC. all reasonable legal fees incurred in enforcing the rights of DSD BUSINESS SYSTEMS, INC. under this provision.

3. **RESTRICTIONS ON USE AND TRANSFER.** The original and any backup copies of the Program and its documentation are to be used only in connection with a single computer or network fileserver. You may physically transfer the Program from one computer to another, provided that the Program is used in connection with only one computer or network fileserver at a time. You may not distribute copies of the Program Documentation to others. The Program is to be used exclusively for business purposes and not for personal, family or household use. YOU MAY NOT USE, COPY, MODIFY, OR TRANSFER THE PROGRAM, IN WHOLE OR IN PART, EXCEPT AS EXPRESSLY PROVIDED FOR IN THIS LICENSE AGREEMENT. IN ADDITION YOU MAY NOT MODIFY, ADAPT, TRANSLATE, REVERSE ENGINEER, DECOMPILE, DISASSEMBLE THE PROGRAM, OR CREATE ANY DERIVATIVE WORK BASED UPON THE PROGRAM.
4. **WARRANTY.** DSD BUSINESS SYSTEMS, INC. software is licensed "as is" with no warranties of any kind, either expressed or implied, other than the following: DSD BUSINESS SYSTEMS will repair any bugs or flaws found in the software. Flaws of a critical nature which affect the basic functionality of the software will be repaired on an "emergency" basis, with a corrected distribution diskette sent via UPS Blue or equal. Flaws of a non-critical or cosmetic nature will be repaired on a timely basis, and a corrected distribution diskette sent via UPS ground or regular mail. All incidental or consequential damages that result from any defect in the software, even if DSD Business Systems, Inc. has been advised of the possibility of such damages will be assumed by you.

5. **LIMITED WARRANTY FOR DISKETTES.** To the original licensee only, DSD BUSINESS SYSTEMS, INC. warrants the magnetic diskette on which the Program is recorded to be free from defects in materials and faulty workmanship under normal use and service for a period of ninety days from the date the Program is delivered. Any implied warranties of merchantability and fitness for a particular purpose are limited in duration to the period of ninety (90) days from the date of delivery. If, during this 90 day period, a defect in the diskette should occur, the diskette may be returned DSD BUSINESS SYSTEMS, INC., 5120 Shoreham Place, Suite 280, San Diego, California, 92122, or to any authorized DSD BUSINESS SYSTEMS, INC. Dealer, and the diskette will be replaced without charge to you, provided that you have previously returned the Warranty Registration Card along with a copy of your sales receipt for the Program.
6. **NO OTHER WARRANTIES.** No dealer or distributor of DSD BUSINESS SYSTEMS, INC. products or any agent of DSD BUSINESS SYSTEMS, INC. is authorized to make any representation of warranty with respect to the Program except those expressly stated in the Customer License Agreement.
7. **LIMITATION OF LIABILITY.** Neither DSD BUSINESS SYSTEMS, INC. nor anyone else who has been involved in the creation, production or delivery of this program shall be liable for any direct, incidental or consequential damages.
8. **TERM.** This license is effective until terminated. You may terminate it at any time by returning the Program and Documentation together with all copies, modifications and merged portions in any form to DSD BUSINESS SYSTEMS, INC. The license will also be terminated by DSD BUSINESS SYSTEMS, INC. immediately and without notice if you fail to comply with any term or condition of this License Agreement.
9. **ACKNOWLEDGMENT.** Your opening this package, use of this program or signature on the warranty registration card acknowledges that you have read this customer license agreement and agree to its terms. You further agree that the license agreement is the complete and exclusive statement of the agreement between yourself and DSD BUSINESS SYSTEMS, INC. and supersedes any proposal or prior agreement, oral or written, and any other communications between yourself and DSD BUSINESS SYSTEMS, INC or dealers and distributors of DSD BUSINESS SYSTEMS, INC products relating to the subject matter of this agreement.
10. **ASSIGNMENT.** You may not sublicense this license or the Program. You may not rent this Program or the use of the Program. You may not transfer this copy of the Program unless the recipient agrees in writing (and a copy of such acceptance is sent to DSD BUSINESS SYSTEMS, INC., 5120 Shoreham Place, Suite 280, San Diego, California, 92122) to accept all of the terms of this Customer License Agreement. Any attempt by you to otherwise rent, sublicense, assign or transfer any of the rights, duties or obligation hereunder is void and may be the cause for immediate termination of the license. DSD BUSINESS SYSTEMS, INC. may assign any of its rights and obligation under this agreement to any party without notice to you.
