If leaving a message or faxing, please include:

Your name.

Your phone number (and fax if applicable) and extension.

It is possible to be unable to duplicate a problem, because of data corruption or because we have not exactly duplicated a particular operating environment. In such circumstances, we can only continue to try to fix the problem if we can either access the system with Symantec PCAnywhere or by some other means access or duplicate the system.

I/M Transfers with Additional Costs Features

This DSD Extended Solution to the Inventory Management module adds an Additional Cost field and a G/L Account Number field to the lines tab of I/M Transaction Transfers. It will be available for all Valuation methods except 'Standard Cost.' You can add costs to Items as they are transferred from one Warehouse to another and specify the G/L account that will hold the difference.

Additional functionality is available if you also have Extended Solution IM-1060: *Last Cost By Warehouse* installed and enabled.

Section B: Getting Started

- **If you reinstall or upgrade one of the Sage 100 modules listed in the following table, you must also reinstall this Enhancement.**
- Enhancements from different Sage Developers are generally not designed to work together. If installed together, problems are likely to occur.
- **Check with DSD before installing more than one Enhancement.**

Required Levels

Sage 100 Module	Module Required	Required Level
I/M	Y	5.30

Installation

1. **Back-up:** Exit all Sage 100 sessions. Back-up existing Sage 100 data.
2. **Check Levels:** Sage 100 module levels **must match** those listed above.
3. **Run Enhancement Setup Program:** Save the executable installation program (sent to you or downloaded from our website) in a convenient location on the Sage 100 server. Launch the program from Windows Explorer or by selecting Start/Run, and then browse for the file in the location you saved it. Follow on-screen instructions.
4. **Send your Sage Serial Number to your DSD Representative:** Send your Sage Serial Number to your DSD representative in order for us to send you back the encrypted keys to unlock your system. This serial number can be found in Library Master\Setup\System Configuration, Tab 3. Registration as Serial Number.
5. **Re-Start Sage 100:** Sage 100 will be updated.
6. **Unlock the Enhancement:** DSD Enhancements must be unlocked to run. When any part of the Enhancement is run for the first time, the **DSD Enhancement License Agreement and Activation** window will appear. Follow the steps shown on that window. *You can click the Help button for more detailed instructions.*

Note: On the next page is a screenshot of the DSD Enhancement License Agreement and Activation window.

After accepting the License Agreement, you can then select the type of unlocking that you'd prefer. The choices are File, Web, Demo and Manual Entry.

File Unlock: After receiving your encrypted serial number key file from DSD, and placing that file in the MAS90/SOA directory, selecting this option will unlock all products keys contained in the file. This means you can unlock all enhancements at once using this option.

Web Unlock: If the system that is running the DSD Enhancement *has web access* and you *have sent DSD your Sage Serial number*, you can unlock the Enhancement without assistance using

Web Unlock. When this option is selected, the program will attempt to download encrypted serial number key file from DSD and then proceed to unlock all enhancements contained in the file.

- The Sage 100 system that is being used must have web access for this option to be effective.
- You can send your Sage Serial Number to your DSD Enhancements sales representative.

Demo Unlock: If a Demo mode is available for the Enhancement you're running, you will be able to Demo unlock the product without assistance from DSD for demo purposes.

- Creating a Demo Unlock is a good way to temporarily unlock DSD Enhancements off-hours, if you do not have web or email access. Later, you can unlock the product fully, during business hours.

Manual Entry Unlock: If you want to unlock a single enhancement using a single encrypted key, you can select this option and enter the 64 character key you receive from DSD by copy and paste.

Note: You can also unlock a DSD Enhancement through the **DSD Enhancement Control Panel** found on the Library Master Utilities Menu. Then, select the Enhancement with your mouse from the list of Enhancements and click the **Unlock Product** button on the right side of the window.

7. **Convert Data:** After registration, the Data Conversion window will appear. Follow on-screen instructions to complete data conversion. You can exit the conversion program without converting data. The Enhancement will not proceed, however, until data is converted. If you enter an enhanced program and data has not been converted, the conversion program will run again.

DSD Enhancement Control Panel

Starting with version 3.61, all DSD Enhancement products include DSD's Enhancement Control Panel. The **DSD Enhancement Control Panel** is accessed from the **Library Master Utilities** menu.

The DSD Enhancement Control Panel is a simple to use yet powerful system to help maintain DSD Enhancements installed on a Sage 100 system. To use it, select an Enhancement product from the list on the window and then click the button, on the right side of the window, which corresponds with the desired task.

View Manual: This button will display the product manual for the selected Enhancement using Adobe Acrobat. For this to be possible, the PDF file for the corresponding manual must be in the "MAS90/PDF" folder in the Sage 100 system. If the file is not present, and the system has web access, the correct PDF file will be automatically downloaded from the DSD website, put into the "MAS90/PDF" folder and then displayed.

Check the Web for Updates: This button will check the DSD website to see what the current build is the selected Enhancement and alert the user if a later version is available. *This requires an FTP web connection on the Sage 100 system.*

Unlock Product: This will cause the DSD Enhancement License Agreement and Activation window to appear. Using this window is described on the previous page. *This button is disabled if the selected Enhancement is already unlocked.*

Unlock All Products: This will cause the DSD Enhancement All License Agreement and Activation window to appear. This window is similar to the one described on the previous page, but has only web and file as options to unlock. *This button is never disabled.*

Convert Data: After verification, the selected Enhancements data conversion program will run. Data conversion is non-destructive, and may be triggered any number of times. Sometimes this is required to fix data records imported or updated from a non-enhancement installation.

Help: The Help button, located at the bottom right of the window, opens an HTML help file .

Get Adobe Acrobat: Opens the Adobe Acrobat website to the page where Acrobat can be downloaded and installed.

Uninstall Enhancement If this option is available, then selecting this button will start the un-install process, removing the enhancement from the system.

There are also links to the DSD website and the Enhancement page on that site.

Section C: Setup

Upon completion of software installation, you will need to access the DSD Extended Solutions Setup from the Inventory Management Setup menu. Select this part number and the Setup screen for this Extended Solution will appear. Check the 'Enable DSD Extended Solution' box to activate this Extended Solution.

The screenshot shows a software setup window titled "IM-1226 Setup Options". Inside the window, the section "I/M Transfers With Additional Costs" contains two options, both of which are checked with checkboxes. The first option is "Enable DSD Extended Solution", and the second is "Use Transfer Codes". To the right of the first option, the text "Level 5.30" is displayed. At the bottom right of the window are two buttons: "Accept" and "Cancel". A status bar at the bottom of the window displays the text "DSD", "ABC", and "4/6/2016".

Use Transfer Codes: When you check this box, a new option will be added to the IM Setup Menu: Transfer Code Maintenance.

You should visit this Setup screen after each upgrade or reinstallation of this Extended Solution.

Product Line Maintenance

A new Transfer Cost G/L Account field has been added to the Product Line Maintenance Accounts Panel.

Additional Cost (which will match the Cost mask specified in I/M Setup) and **Cost Account**.

If an Additional Cost is specified, you must define a G/L Account Number. If a Transfer Cost is setup in I/M Product Line Maintenance, then that account will be defaulted as the Additional Cost Accounts, and the data entry will to Warehouse Segment Substitution, if selected in Product Line Maintenance. Both fields can be moved to the Primary Grid.

		Lot: 500						
						Transaction Total:		9,055.00
						Report Total:		9,055.00

The EXTENSION column will print the result of: (Unit Cost + Additional Cost) * Qty

For Items whose valuation method is: FIFO, LIFO, Lot or Serial, Transaction update of Transfers with additional costs will do the following:

- Increase or decrease the Unit Cost of the tier(s) associated with the transfer by the Additional Cost amount into the 'To' Warehouse. Value leaving the 'From' Warehouse will remain unchanged
- Post the difference between the Cost Extension coming out and the Cost extension going in to the General Ledger account specified on the line.
- The Last Cost fields* in CI_Item will be updated with 'Last Cost' equal to the From WHS Unit Cost, 'Allocated' set to the 'Additional Cost' and 'Total Last Cost' as the sum of the two.

For Items with a valuation method of Average, Transaction Update of Transfers with Additional Costs will perform the following:

- Post the difference between the Cost Extension coming out and the Cost extension going in to the General Ledger account specified on the line.
- The Last Cost fields* in CI_Item will be updated with 'Last Cost' equal to the From WHS Unit Cost, 'Allocated' set to the 'Additional Cost' and 'Total Last Cost' as the sum of the two

**Update of CI_Item's Last Cost fields will only be as good as the LAST transaction updated referencing this Item Number. Therefore, if multiple transfer transactions are being updated at once and an item is referenced on more than one transfer, then the last one will be reflected in the CI_Item fields.*

Using Transfer Codes

If you checked the 'Use Transfer Codes' option in Setup, a new Transfer Code Maintenance option will be added to the IM Setup Menu. On this screen, you can define a list of valid 4 character alphanumeric codes, each with a 30 character description.

The 'Transfer Code Maintenance' dialog box has a title bar with standard window controls. It contains two input fields: 'Transfer Code' with the value 'DEF' and 'Description' with the value 'Defective Transfer'. At the bottom, there are four buttons: 'Accept', 'Delete', 'Cancel', and a printer icon.

A listing will be available for printing.

Transfer Code Listing		ABC Distribution and Service Corp. (ABC)	
Transfer Code	Description		
DEF	Defective Transfer		
DEFL	Defective Transfer, Lost		
DEFW	Defective Transfer, Warranty		
DES	Destroyed in Transfer		
IWH	Intra Warehouse		
LOST	Transfer Shrinkage		
SSH	Sales Shift		
XWH	Cross Warehouse		

The Lines Tab of I/M Transaction Transfers has been modified with the Transfer Code field added for each Line, accessible via the Secondary Grid. It can also be moved to the Primary Grid.

The 'Transaction Entry (ABC) 9/18/2013' window shows a 'Transfers' transaction type with entry number '00000002'. It has tabs for '1. Header' and '2. Lines'. The '2. Lines' tab is active, showing a table with columns: Item Code, Costing, Additional Cost, Cost Account, Quantity, Unit Cost, and Extension. Below the table are fields for 'Unit of Measure' (EACH), 'Extended Desc', 'Distrib Required', and 'Transfer Code' (IWH). At the bottom are 'Accept', 'Cancel', 'Delete', and a printer icon.

	Item Code	Costing	Additional Cost	Cost Account	Quantity	Unit Cost	Extension
1	DESK0	Serial	50.000000		2.00	750.000	1,500.00
2	DESKSET	Average	5.000000	115-01-00	5.00	35.000	175.00
3	LEATHER PACKAGE	LIFO	75.000000	115-01-00	5.00	1,200.000	6,000.00
4	SPEAKERS	FIFO	10.000000	115-01-00	5.00	150.000	750.00
5	TAPEDIS	Lot	.500000	115-01-00	10.00	7.500	75.00
6			.000000		.00	.000	0.00

During Transaction Journal update, the program will write out the Transfer Code used to IM_ItemTransactionHistory.

With IM-1060

If IM-1060: *Last Cost By Warehouse* is installed and enabled, as the IM1 fields for 'Last Cost' and 'Allocated Cost' are updated and 'Total Last Cost' is calculated, this Extended Solution will also update these corresponding fields in the Warehouse file for the 'To' side of the transfer.

Section E: Uninstall DSD Enhancements

A DSD Enhancements Uninstall Utility has been provided for the purposes of removing DSD Enhancements from your Sage 100 System. This utility may be accessed from the **DSD Enhancement Control Panel** menu option on the **Library Master / Utilities** menu.

When accessing the **DSD Utility Suite**, select the enhancement that you wish to Uninstall, and then select the **Uninstall Enhancement** button. The following message box will appear:

Select **No** to exit the Uninstall Process.
Select **Yes** to continue with the Uninstall Process.

The following message box will appear, to remind you that a complete backup of your entire MAS90 system should be completed prior to uninstalling a DSD product.

Select **No** to exit the Uninstall Process.

Select **Yes** to continue with the Uninstall Process.

After the Uninstall of the DSD Enhancement, you **MUST** reinstall certain standard Sage 100 modules, followed by reinstallation of MAS Service Packs / Updates, if applicable.

The following message box will appear, and will display which of those specific Sage 100 modules you must reinstall afterwards.

Select **No** to exit the Uninstall Process.

Select **Yes** to continue with the Uninstall Process.

The following message box will appear, displaying the final warning message.

Select **No** to exit the Uninstall Process.

Select **Yes** to continue with the Uninstall Process. At this point, the DSD Enhancement will be removed from the Sage 100 system.

After completion of the Uninstall, the following message box will appear. Select OK to continue.

Now that the Uninstall process is completed, you must:

- Reinstall the applicable standard Sage 100 modules
- Reinstall the latest Sage 100 Service Pack/Updates, if applicable.
- Reinstall any other DSD Enhancements or Developer products that are affected from the reinstallation of the standard Sage 100 module(s).

3. **RESTRICTIONS ON USE AND TRANSFER.** The original and any backup copies of the Program and its documentation are to be used only in connection with a single computer or network fileserver. You may physically transfer the Program from one computer to another, provided that the Program is used in connection with only one computer or network fileserver at a time. You may not distribute copies of the Program Documentation to others. The Program is to be used exclusively for business purposes and not for personal, family or household use. YOU MAY NOT USE, COPY, MODIFY, OR TRANSFER THE PROGRAM, IN WHOLE OR IN PART, EXCEPT AS EXPRESSLY PROVIDED FOR IN THIS LICENSE AGREEMENT. IN ADDITION YOU MAY NOT MODIFY, ADAPT, TRANSLATE, REVERSE ENGINEER, DECOMPILE, DISASSEMBLE THE PROGRAM, OR CREATE ANY DERIVATIVE WORK BASED UPON THE PROGRAM.
4. **WARRANTY.** DSD BUSINESS SYSTEMS, INC. software is licensed "as is" with no warranties of any kind, either expressed or implied, other than the following: DSD BUSINESS SYSTEMS will repair any bugs or flaws found in the software. Flaws of a critical nature which affect the basic functionality of the software will be repaired on an "emergency" basis, with a corrected distribution diskette sent via UPS Blue or equal. Flaws of a non-critical or cosmetic nature will be repaired on a timely basis, and a corrected distribution diskette sent via UPS ground or regular mail. All incidental or consequential damages that result from any defect in the software, even if DSD Business Systems, Inc. has been advised of the possibility of such damages will be assumed by you.

5. **LIMITED WARRANTY FOR DISKETTES.** To the original licensee only, DSD BUSINESS SYSTEMS, INC. warrants the magnetic diskette on which the Program is recorded to be free from defects in materials and faulty workmanship under normal use and service for a period of ninety days from the date the Program is delivered. Any implied warranties of merchantability and fitness for a particular purpose are limited in duration to the period of ninety (90) days from the date of delivery. If, during this 90 day period, a defect in the diskette should occur, the diskette may be returned DSD BUSINESS SYSTEMS, INC., 5120 Shoreham Place, Suite 280, San Diego, California, 92122, or to any authorized DSD BUSINESS SYSTEMS, INC. Dealer, and the diskette will be replaced without charge to you, provided that you have previously returned the Warranty Registration Card along with a copy of your sales receipt for the Program.
6. **NO OTHER WARRANTIES.** No dealer or distributor of DSD BUSINESS SYSTEMS, INC. products or any agent of DSD BUSINESS SYSTEMS, INC. is authorized to make any representation of warranty with respect to the Program except those expressly stated in the Customer License Agreement.
7. **LIMITATION OF LIABILITY.** Neither DSD BUSINESS SYSTEMS, INC. nor anyone else who has been involved in the creation, production or delivery of this program shall be liable for any direct, incidental or consequential damages.
8. **TERM.** This license is effective until terminated. You may terminate it at any time by returning the Program and Documentation together with all copies, modifications and merged portions in any form to DSD BUSINESS SYSTEMS, INC. The license will also be terminated by DSD BUSINESS SYSTEMS, INC. immediately and without notice if you fail to comply with any term or condition of this License Agreement.
9. **ACKNOWLEDGMENT.** Your opening this package, use of this program or signature on the warranty registration card acknowledges that you have read this customer license agreement and agree to its terms. You further agree that the license agreement is the complete and exclusive statement of the agreement between yourself and DSD BUSINESS SYSTEMS, INC. and supersedes any proposal or prior agreement, oral or written, and any other communications between yourself and DSD BUSINESS SYSTEMS, INC or dealers and distributors of DSD BUSINESS SYSTEMS, INC products relating to the subject matter of this agreement.
10. **ASSIGNMENT.** You may not sublicense this license or the Program. You may not rent this Program or the use of the Program. You may not transfer this copy of the Program unless the recipient agrees in writing (and a copy of such acceptance is sent to DSD BUSINESS SYSTEMS, INC., 5120 Shoreham Place, Suite 280, San Diego, California, 92122) to accept all of the terms of this Customer License Agreement. Any attempt by you to otherwise rent, sublicense, assign or transfer any of the rights, duties or obligation hereunder is void and may be the cause for immediate termination of the license. DSD BUSINESS SYSTEMS, INC. may assign any of its rights and obligation under this agreement to any party without notice to you.
