It is possible to be unable to duplicate a problem, because of data corruption or because we have not exactly duplicated a particular operating environment. In such circumstances, we can only continue to try to fix the problem if we can either access the system with Symantec PCAnywhere or by some other means access or duplicate the system.

### ***Multiple Due Dates Features***

Six new Due Date/Invoice Amount fields have been added to S/O Invoice Data Entry. The Sales Journal will print these new fields for each invoice. Only one Invoice History record will be created for the main invoice, however, multiple Open Invoice records will be created in the Open Invoice file, each with a different Due Date. The A/R Aging will reflect these Due Dates.

## Section B: Getting Started

### CAUTION

- **If you reinstall or upgrade one of the Sage 100 modules listed in the following table, you must also reinstall this Enhancement.**
- Enhancements from different Sage Developers are generally not designed to work together. If installed together, problems are likely to occur.
- **Check with DSD before installing more than one Enhancement.**

### Required Levels

Sage 100 Module	Module Required	Required Level
S/O	Y	5.30
A/R	Y	5.30

### Installation

1. **Back-up:** Exit all Sage 100 sessions. Back-up existing Sage 100 data.
2. **Check Levels:** Sage 100 module levels **must match** those listed above.
3. **Run Enhancement Setup Program:** Save the executable installation program (sent to you or downloaded from our website) in a convenient location on the Sage 100 server. Launch the program from Windows Explorer or by selecting Start/Run, and then browse for the file in the location you saved it. Follow on-screen instructions.
4. **Send your Sage Serial Number to your DSD Representative:** Send your Sage Serial Number to your DSD representative in order for us to send you back the encrypted keys to unlock your system. This serial number can be found in Library Master\Setup\System Configuration, Tab 3. Registration as Serial Number.
5. **Re-Start Sage 100:** Sage 100 will be updated.
6. **Unlock the Enhancement:** DSD Enhancements must be unlocked to run. When any part of the Enhancement is run for the first time, the **DSD Enhancement License Agreement and Activation** window will appear. Follow the steps shown on that window. *You can click the Help button for more detailed instructions.*

*Note: On the next page is a screenshot of the DSD Enhancement License Agreement and Activation window.*

After accepting the License Agreement, you can then select the type of unlocking that you'd prefer. The choices are File, Web, Demo and Manual Entry.

**File Unlock:** After receiving your encrypted serial number key file from DSD, and placing that file in the MAS90/SOA directory, selecting this option will unlock all products keys contained in the file. This means you can unlock all enhancements at once using this option.

**Web Unlock:** If the system that is running the DSD Enhancement *has web access* and you *have sent DSD your Sage Serial number*, you can unlock the Enhancement without assistance using Web Unlock. When this option is selected, the program will attempt to download encrypted serial number key file from DSD *and then proceed to unlock all enhancements contained in the file*.

- The Sage 100 system that is being used must have web access for this option to be effective.
- You can send your Sage Serial Number to your DSD Enhancements sales representative.

**Demo Unlock:** If a Demo mode is available for the Enhancement you're running, you will be able to Demo unlock the product without assistance from DSD for demo purposes.

- *Creating a Demo Unlock is a good way to temporarily unlock DSD Enhancements off-hours, if you do not have web or email access. Later, you can unlock the product fully, during business hours.*

The screenshot shows a software window titled "DSD Enhancement License Agreement and Activation". The window contains a "License Agreement" section with a scrollable text area. Below the agreement are four numbered steps: 1. Agree to License Agreement (radio buttons for Agree and Disagree), 2. Select Unlocking Type (radio buttons for Web, File, Demo, and Manual Entry), 3. Call DSD at 858-550-5900 (text boxes for End User Name and Serial Number), and 4. Enter the following from DSD (text box for Activation Key). There is an "Unlock Product" button and "Help" and "Exit" buttons at the bottom.

**Manual Entry Unlock:** If you want to unlock a single enhancement using a single encrypted key, you can select this option and enter the 64 character key you receive from DSD by copy and paste.

*Note: You can also unlock a DSD Enhancement through the DSD Enhancement Control Panel found on the Library Master Utilities Menu. Then, select the Enhancement with your mouse from the list of Enhancements and click the Unlock Product button on the right side of the window.*

7. **Convert Data:** After registration, the Data Conversion window will appear. Follow on-screen instructions to complete data conversion. *You can exit the conversion program without converting data. The Enhancement will not proceed, however, until data is converted. If you enter an enhanced program and data has not been converted, the conversion program will run again.*

### DSD Enhancement Control Panel

Starting with version 3.61, all DSD Enhancement products include DSD's Enhancement Control Panel. The DSD Enhancement Control Panel is accessed from the Library Master Utilities menu.

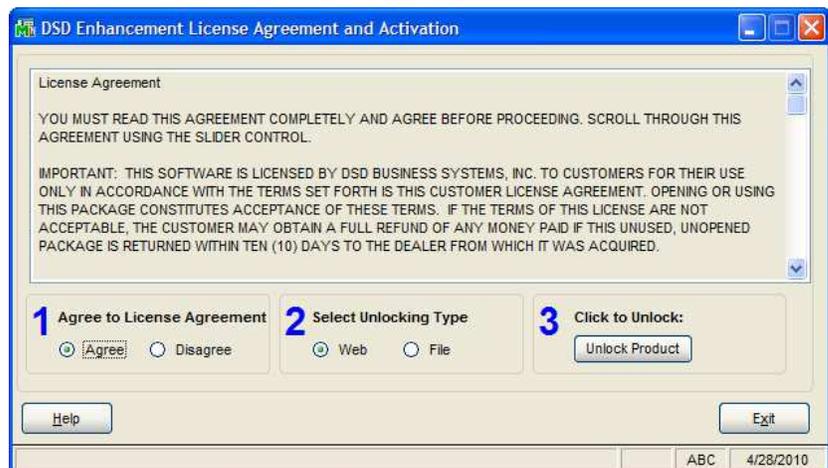

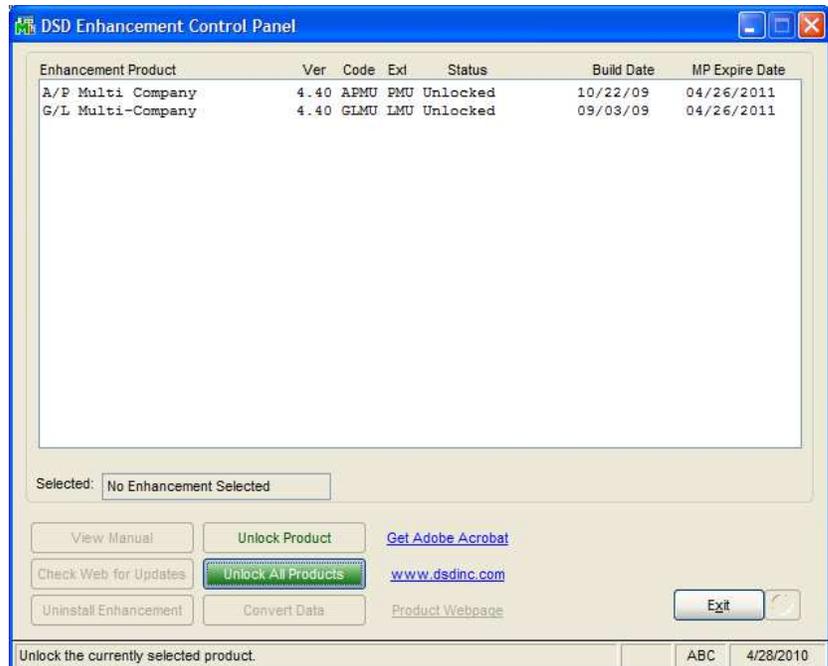

The DSD Enhancement Control Panel is a simple to use yet powerful system to help maintain DSD Enhancements installed on a Sage 100 system. To use it, select an Enhancement product from the list on the window and then click the button, on the right side of the window, which corresponds with the desired task.

**View Manual:** This button will display the product manual for the selected Enhancement using Adobe Acrobat. For this to be possible, the PDF file for the corresponding manual must be in the "MAS90/PDF" folder in the Sage 100 system. If the file is not present, and the system has web access, the correct PDF file will be automatically downloaded from the DSD website, put into the "MAS90/PDF" folder and then displayed.

**Check the Web for Updates:** This button will check the DSD website to see what the current build is the selected Enhancement and alert the user if a later version is available. *This requires an FTP web connection on the Sage 100 system.*

**Unlock Product:** This will cause the DSD Enhancement License Agreement and Activation window to appear. Using this window is described on the previous page. *This button is disabled if the selected Enhancement is already unlocked.*

**Unlock All Products:** This will cause the DSD Enhancement All License Agreement and Activation window to appear. This window is similar to the one described on the previous page, but has only web and file as options to unlock. *This button is never disabled.*

**Convert Data:** After verification, the selected Enhancements data conversion program will run. Data conversion is non-destructive, and may be triggered any number of times. Sometimes this is required to fix data records imported or updated from a non-enhancement installation.

**Help:** The Help button, located at the bottom right of the window, opens an HTML help file .

**Get Adobe Acrobat:** Opens the Adobe Acrobat website to the page where Acrobat can be downloaded and installed.

**Uninstall Enhancement** If this option is available, then selecting this button will start the un-install process, removing the enhancement from the system.

There are also links to the DSD website and the Enhancement page on that site.

## Section D: System Operations

### S/O Invoicing – Multiple Due Dates

A new ‘Next A Invoice’ button has been added next to the current ‘Next Invoice No’ button for the creation of an invoice with multiple due dates. The first invoice created will be the regular invoice number ending with the letter ‘A’, and other invoices created will end with the letter ‘B’, ‘C’, ‘D’, ‘E’, and/or ‘F’

A new button called “Terms” has been added to the S/O Invoice Data Entry Totals Panel. This button will only be enabled if the Invoice Number ends with the letter “A”.

Twelve new fields have been added to the S/O Invoice Data Entry Header file:

- i. Due Date A
- ii. Invoice Amount A
- iii. Due Date B
- iv. Invoice Amount B
- v. Due Date C
- vi. Invoice Amount C
- vii. Due Date D
- viii. Invoice Amount D
- ix. Due Date E
- x. Invoice Amount E
- xi. Due Date F
- xii. Invoice Amount F

When the 'Terms' button is selected, a new pop-up panel will be displayed with the 12 new fields. The Due Date fields will be lined up in a column, and the associated Invoice Amounts will be lined up in a column on the right.

For new invoices, the "Due Date A" will default to the Due Date from the Header Panel, and the "Invoice Amount A" will default to the entire invoice amount. Both "Due Date A" and "Invoice Amount A" will be disabled.

The user will be able to enter another 5 Due Dates and Invoice Amounts. Each time an Invoice Amount is entered, the "Invoice Amount A" is decreased by that amount.

The image displays two screenshots of the 'Multiple Due Date Entry' dialog box. The left screenshot shows the initial state with 'Due Date A' set to 10/13/2013 and 'Invoice Amount A' at 4,719.54. The right screenshot shows the dialog after five additional due dates and amounts have been entered, with 'Invoice Amount A' updated to 1,219.54.

Due Date	Invoice Amount
10/13/2013	4,719.54

11/10/2013	500.00
11/15/2013	500.00
11/20/2013	500.00

For new invoices entered into Invoice Data Entry, after the user selects the Accept Button, the new panel will automatically pop-up if the user hasn't selected the button already.

The Sales Journal has been modified to print these new fields for each invoice.

No other changes have been made in the Invoice Update. No changes have been made to the General Ledger postings.
