

# A solution that works as hard as you do

Personalize processes, stay compliant, and simplify everyday tasks with Sage 100cloud. Here's a quick look at how Sage 100cloud can empower everyone in your organization.

## Modernized Interface

### Automation made easy

Streamlined so you can stop wasting your time manually entering info into multiple systems

#### Simplify everyday tasks

Easily enter data and print with new preference settings

#### Simplify personalization and security

Change colors and themes—while limiting access to privileged information

#### Simplify navigation

Change fonts, customize themes, and color schemes

#### Improve application scaling

Adjust resolution to fit high-definition screens

## Finance

### Intuitive database management

Streamlined interface so employees can juggle a range of different tasks at the same time

#### Improve reporting & printing

You don't have to run an entire batch anymore—post invoices, receipts, adjustments, refunds, and more directly from entry screens

#### Resize and anchor controls for better user and data entry

Custom Office allows field adjustment relative to the size of your window or a fixed position

#### Improve accuracy and communication in Accounts Receivable

Add, view, and edit customer memos in repetitive invoice entry

#### Improve performance and user experience

Now available in the SQL framework, Sage Fixed Assets offers a drastically reorganized approach to tasks

## HR and Payroll

### Comply with the ACA

Ensure your company is meeting new Affordable Care Act requirements

#### Handle payroll a whole new way

Direct integration allows you to upload general ledger account numbers and bank codes to Sage Payroll Services and then download payroll transactions back to your Transaction Journal entry

#### Seamless web integration

Easy access to previously visited websites and quick activation of Sage services

## Sales

### Simplify credit card processing and more

Sage Payment Center gives users the ability to accept credit card payments, and view real-time transactions from dashboard within their Sage software

#### Simplify data entry

We've added default options and expanded certain field character limits

#### Customer Service

#### Stay on top of business

Simplify the process of finding and winning new customers with the integration of Sage CRM for companywide access to detailed information

Get the info you need when you need it. Keep track of everything from accounts payable to inventory management with the Business Insights Dashboard:

- **Monitor status with KPIs** that reveal cash flow, aging receivables, expenditures, and top customers
