

sage 300cloud

BUSINESS SYSTEMS

Business Management Software

Multiple Locations, Languages, Currencies – Jump Over Hurdles and Keep Your Momentum

DEDICATED SERVERS AND RESOURCES

What does this mean? Everything just works.

Your applications and data are best suited for a dedicated environment. No resources shared among other clients. Safe, secure and reliable with cloud hosting from MyHostedDSD.

When it's time for your business to move beyond simple accounting software, you can count on a Sage business management solution to manage your manufacturing, distribution, and retail processes from end to end. Unite your company so you can grow revenues, reduce costs, and increase profitability.

Sage 300cloud

Sage 300cloud just works. No matter the size of your company, from 3 to 3000 in the cloud.

Upgrades, Updates, Maintenance

We automatically schedule time to perform solution upgrades, updates or maintenance for you after hours.

Our experts are trained in Sage 300cloud and nearly all Third Party Solutions and include a sandbox for every major upgrade for our Business+ customers.

All your systems, one place, managed environment with answers for your technical questions or troubleshooting. All included.

Run Your Business, Everywhere

Whether you own one or more locations in the same country or many countries, Sage 300 or Sage 300cloud will allow you to manage from the cloud.

Your command center can be anywhere – you're not tethered to a desk. Mac, PC, tablet, smartphone? Yes to all of these.

With our Sage 300cloud Hosting + Sage 300 Enterprise, you get the best in-class enterprise business management software, plus the convenience being globally connected. Easy, flexible and 100% Sage 300cloud Hosting.

Solid Peace of Mind

All your systems and data are backed up automatically with scheduled maintenance every night.

But wait, there's more!

Every night during our regular maintenance you get fresh hardware running your business along with redundancy across our Global Data Centers.

Continuity plans are available for that added level of comfort that you can gain access to your data at any moment.
