TimeForce

Time & Attendance in the cloud

Welcome to iSolved TimeForce!

Traditional timekeeping methods set the stage for calculation and data entry errors, as well as incorrect or inconsistent application of company policies. Mistakes are frequent and usually not discovered until after payroll has been disbursed, if ever at all. Additional time and money are commonly spent on error correction, tax penalties and even legal disputes. The entire process is unnecessarily labor-intensive, error prone and costly.

TimeForce is a cloud-based time and attendance system that can be used alone, or as part of a comprehensive human capital management solution, iSolved. TimeForce replaces cumbersome tracking procedures and completely eliminates collecting worked time information manually.

TimeForce is the result of more than 20 years of experience, customer feedback and research and development. It provides a robust set of features within an intuitive user interface and lots of collection options. And best of all, it has been developed to work hand in hand with our iSolved solution, providing employers with a one-stop technology for payroll, human resources, job costing, scheduling and benefits enrollment.

iSolved TimeForce features:

- ⑤ Affordable Care Act compliance reports
- ⑤ Multi-browser support

⌚ **Process Time:** Since TimeForce is browser-based, supervisors and payroll staff can review, edit and approve employee time online, anytime. In just a few steps, your payroll manager can fix exceptions, verify that the supervisors have approved time cards and lock the pay cycle and prepare file for payroll processing.

Web-style interface and tabbed sections make information easy to retrieve and edit.

With iSolved TimeForce reports you will have all the information you need.

Menu-style browsing moves you quickly through reviewing, editing, reporting and processing time.

Integrated with iSolved

TimeForce exports to all major payroll software packages or your third-party payroll processing bureau. However, TimeForce is built to fully integrate with iSolved, providing you with a single access point for all of your time, payroll, HR and benefits information.

Designed for ease of use for busy HR and payroll managers, iSolved eliminates extraneous work, increases data accuracy and delivers profitability gains. This is a game changer and you will wonder how you ever did without it!

TimeForce Service + Support

iSolved offers full implementation of your iSolved TimeForce system. After determining your needs and policies, a Time specialist will enter a sampling of your employees into the system and demonstrate how to set up policies, pay periods, and department structures. We also provide ongoing training resources available through our iSolved Learning Center.
