sage 50cloud

Easy, Secure, Mobile and Customizable

Simplify how you manage your business – choose mobile accounting with Sage Cloud Hosting

DEDICATED SERVERS AND RESOURCES

What does this mean? Everything just works.

Your applications and data are best suited for a dedicated environment. No resources shared among other clients. Safe, secure and reliable with cloud hosting from MyHostedDSD.

Automatic Updates

We automatically schedule time to perform solution upgrades, updates or maintenance for you after hours. Our experts are trained in Sage and nearly all 3rd Party Solutions.

All your systems in one managed environment with during or after installation, answer your technical questions, or help troubleshoot.

Low Touch Environment

Your environment is custom no matter the size of your organization or number of applications needed to support your operations.

Expert Sage Support

End-to-end support for Sage and for all your 3rd Party Applications like StarShip, TrueCommerce, Orchid, MISys Manufacturing, Edisoft, BizNet and more.

Beyond Backups

We don't just backup your data nightly; we image the whole environment and every server included.

Redundant backups are stored at other data centers so that we can recover your full environment without hiccups.

Sage 50cloud

Desktop Software That Gives You The Best of Both Worlds – Access Anywhere

Automatic Upgrades, Maintenance

This is a no-brainer. It's always included. We automatically schedule time to perform solution upgrades, updates or maintenance for you after hours. Our experts are trained in Sage 50cloud and nearly all 3rd Party Solutions. All your systems in one managed environment with during or after installation, answer your technical questions, or help troubleshoot.

Beyond Backups

All your systems and data are backed up automatically with scheduled maintenance every night. But wait, there's more!

Every night during our regular maintenance you get fresh hardware running your business along with redundancy across our Global Data Centers.
