KEY BENEFITS

STAY CONNECTED 24x7

- Connect to Acumatica in real time so that you always have access to the latest information

GET MORE FROM YOUR DEVICES

- Integrate with your mobile devices to leverage unique capabilities such as camera or fingerprint reader

MINIMIZE DATA RE-ENTRY

- Sync all data updates and changes you make in the mobile app with your Acumatica system—automatically

INNOVATE

- Extend functionality in the mobile app using Acumatica's Mobile Application Framework along with tools and languages your developers already use
- Develop advanced mobile solutions for your ERP on the Acumatica framework

MOBILE ERP APPLICATIONS FEATURES AND CAPABILITIES

Time Reporting	Update Acumatica immediately—from anywhere, at any time—with mobile time card entry.
Approvals	Review and complete approvals for time, expense, and sales orders in just a few clicks.
Task Management	Create an event in the Acumatica mobile app and edit it from the Acumatica Customer Management Suite any time.
Available on iOS and Android	Increase employee productivity by letting your staff work on the devices of their choice.
Free Download	Download the iOS or Android app from the Apple App Store or Google Play at no cost.
Mobile Push Notifications	Notifications of business events are pushed to Acumatica mobile app users. For example, this feature can be used to notify sales people of new opportunities.
Navigation Tabs	Users can navigate to the most used detail lists by tapping or swiping the needed tab on the mobile form. For example, for a sales order record, users can view Summary, Details, and Settings
Upload Images Using a Mobile Device	Use the Acumatica ERP web interface to capture and upload images with a registered mobile device. Capture an image of a receipt and Acumatica automatically creates the expense receipt using AI with Machine Learning.
