Multi-tax

Simplify tax compliance for your global organization

For organizations that have operations around the world, compliance with tax legislation across all their entities is critical. Sage Intacct Multi-tax simplifies compliance across 4 continents, while delivering a flexible tax engine to maintain compliance with the requirements of other local tax authorities. Easily calculate taxes , accurately report, file, and audit, and comply with confidence.

Scale you global organization with tax automation

- **Automate tax capture out-of-the-box** across 4 continents. With taxes included in every transaction, our end-to-end solution uses automation to increase accuracy and auditability.

- **Expand your global coverage** to ensure compliance with local tax requirements using Sage Intacct's flexible, no-code tax engine.

- **Support your multi-entity organization** by assigning default tax engines for each entity. Sage Intacct does the heavy lifting so you can have peace of mind, even as your organization grows.
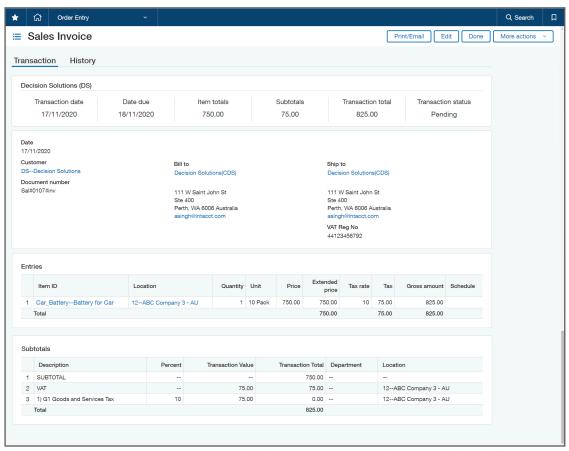

Accurately and efficiently report, file, and audit taxes

- **Remove the administrative burden** of auditing the tax implications of transactions, across every entity, with centralized reporting.

- **Capture the tax effects of all transactions** in reports, so you can confidently prepare your tax returns for self-submission, or in the format required by your accountant or agency to submit on your behalf.

- **Define a global policy** and tailor if for local needs, all in a single system, enabling you to see and monitor policies across all entities.

Comply with confidence

- **Streamline global compliance.** Sage Intacct's Multi-tax engine enables you to easily monitor, maintain, and prove compliance across multiple tax jurisdictions. Get down to the details with the ability to drill down to the source data.

- **Making Tax Digital Compliant.** File directly with the HMRC and comply with the UK's Making Tax Digital initiative.
