Vendor Payments Powered by CSI

*Streamline vendor payments with an
integrated solution that enables quick and
secure transactions*

If your organization is jumping between multiple systems or getting bogged down in manual processes to deliver and reconcile vendor payments, you need a solution that streamlines those activities. Sage Intacct enables you to automate your payments with Vendor Payments powered by CSI. Bringing Sage Intacct best-in-class cloud financials and CSI's trusted payments platform together delivers a seamless experience from bill to reconciliation. Enabling you to pay your vendors quickly and securely, speed up reconciliations, and offer more ways to pay, all while saving on transaction costs.

One system from invoice to payment

Pay vendors straight from Sage Intacct

Vendor Payments streamlines your existing workflow, so you can go from invoice to payment without leaving Sage Intacct.

Improve payment processes

Automate your payments and eliminate manual processes and opportunities for error, freeing up significant time to focus on more strategic activities. Just click submit within Sage Intacct, and Vendor Payments handles the rest.

Trust that your payments are secure

CSI, the engine behind Vendor Payments, maintains multiple compliance certifications, including PCI DSS Level 1 and SOC 2; employs the highest level of encryption for data-in-transit and data-at-rest; and is a Mastercard and Visa certified processor and issuer.

Pay multiple vendors, with their preferred payment methods, without ever leaving Sage Intacct

Speed up reconciliations, reduce errors

Simplify the reconciliation process

Easily match invoices and payment, saving you time, and reducing errors.

Always know where your payments stand

Get full visibility into the status of all your payments with detailed updates at every stage. For example, with virtual cards you can see when a card was authorized, sent, accepted, or even if the payment was rejected by the vendor.

More ways to pay and save

Use flexible payment options

Pay your vendors the way they prefer, with options that include automated clearinghouse (ACH); printed checks; and secure, one-time-use virtual cards. Eliminate the need to print and mail checks—a potential savings of \$4 per check—and send ACH files or pay with your corporate card.

Easy access to quick, secure payments

One-time use virtual cards provide benefits for you and your vendors. You get a fast, secure way to pay vendors, and with the potential for cash rebates, you can earn revenue while you pay. Your vendors get enhanced reconciliation data, giving them additional visibility into the payments they receive. A true win-win.

Get your vendors onboarded faster

As the payment processor, CSI can proactively reach out to vendors on your behalf. This saves you the time and effort of reaching out to every vendor, while providing them an easy, secure way to update their payment details.
