Acumatica and Assignar Integration

Assignar is a cloud-based construction operations software built to help self-perform and subcontractors improve efficiency, profitability, and safety. Simplify and expedite scheduling in the field and eliminate the need for entering the data into two systems, saving time and labor.

- **Sync client, vendor and timesheet data on the job site**
- **Share timesheets from Assignar directly into Acumatica**
- **Eliminate the need for physical paper timesheets**

Key business benefits

- Save valuable time on the job site by automatically pulling data from Acumatica.
- Eliminate the need to enter the information twice, resulting in fewer mistakes and more accurate data.
- Share timesheets from Assignar directly to Acumatica.
- Gain better visibility and control over field operations.
- Manage assets and workforce more efficiently.

Expedite Scheduling and Service, Gain Productivity, and Eliminate Paperwork

Assignar and Acumatica Construction Edition's integration allows client, vendor, and timesheet data to be synchronized between the programs in the office and on the job site. This allows for faster scheduling in the field – even for new clients. It also eliminates the need for entering vital data into two different systems, saving time and labor. Timesheets are sent directly from electronic devices in the field to the office, reducing unnecessary paperwork.
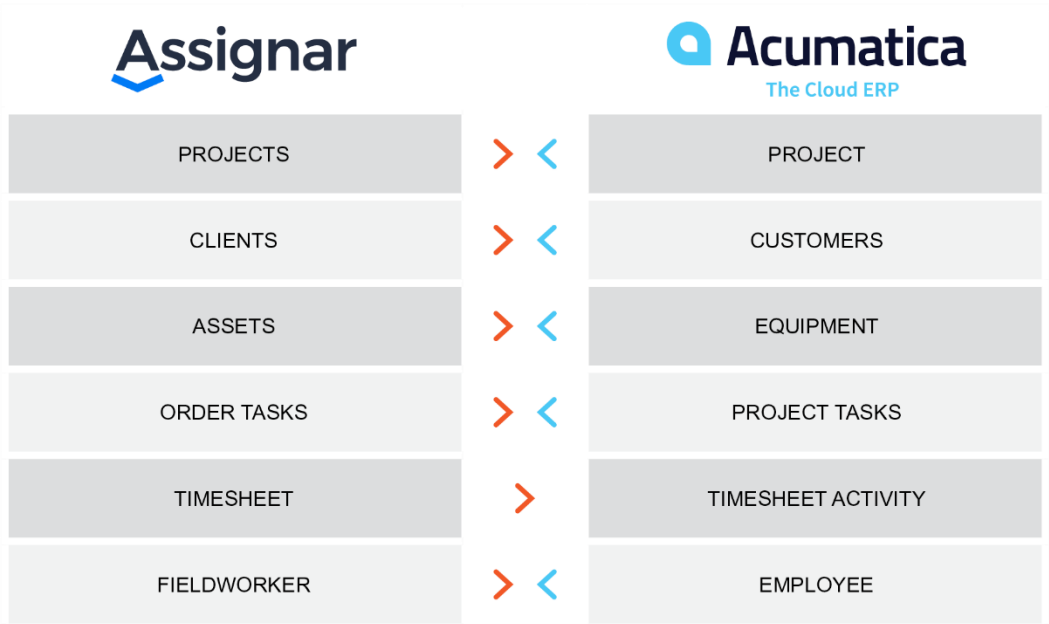

Assignar is a cloud-based construction operations software built to help self-perform and subcontractors improve efficiency, profitability, and safety. The innovative platform replaces paper spreadsheets and single-point solutions by allowing real-time tracking and scheduling. Manage your workforce, assets and more from anywhere with Assignar's cloud platform. Assignar enables communication and data collection for greater visibility and control over field operations.

"We have dashboards for each role in the company. For example, our AP supervisor has her own dashboard that shows a list of subcontractors that have bills out there."

–Aasha Cunningham, Director of Accounting and Administration, Phoenix Restoration and Renovation, Inc.
