Sage Intacct Business Fundamentals Launchpad

Services to streamline your deployment of core Sage Intacct financials

All businesses know: It's not easy to find the time, expertise, and resources needed to get off the ground when deploying new software. That's why we've created the **Business Fundamentals Launchpad**.

This structured, tightly focused services package is ideal for organizations wanting Sage Intacct core functionality up and running quickly. Whether you're stepping up from QuickBooks or transitioning from other legacy financial management systems, Business Fundamentals Launchpad gets your Sage Intacct deployment **fully operational in just 4 weeks** with 4 additional weeks of post-live services to ensure your success.

You're ready for today's challenges

In a 5-stage engagement, Business Fundamentals Launchpad brings years of Sage Intacct experience and best practices to address your primary business, operational, and financial-management needs: general ledger, accounts payable, accounts receivable, cash management, employee expenses, order entry, and purchasing.

Project engagement

We conduct the project kickoff meeting, finalize the project plan, gather information, determine the data we'll need, and explain the chart of accounts.

Data collection

We work with you to populate our templates and upload the right data into Sage Intacct.

Configuration and data loading

We activate your Sage Intacct environment, load your data, and get your company operational.

Training

You receive a combination of education services to get you comfortable using the software. This includes the "Sage Intacct Fundamentals" classroom course where you learn the Sage Intacct basics, Learning Center access for prerecorded videos on a breadth of topics, and hands-on walkthroughs by the implementation team in your own environment.

Go-live and post-go-live services

Your implementation team continues to assist you through your first month on the system, followed by assistance from our Customer Support team.

8 weeks, 0 hassles

- Tap into best practices that get your key Sage Intacct components and processes running in just 4 weeks, with 4 additional weeks of post-live assistance.
- Leverage pre-configured frameworks for lower costs and faster deployment.
- Use our provided chart of accounts—or expand on it for your business needs.
- Get standard financial reports.
- Built on the standard Sage Intacct product, providing access to all of our powerful, award-winning functionality for easy scale and growth.
- Includes comprehensive training.

You're ready for tomorrow's challenges

With Business Fundamentals Launchpad, you address today's immediate business challenges with our best-in-class financial management solution—and retain the flexibility to run your business for years to come.

Business Fundamentals Launchpad lays the foundation for Sage Intacct to grow with you down the road, whether you're a private organization or planning for an IPO. Planning to acquire new businesses? You can add new entities in minutes. Starting operations in a foreign country? Add Sage Intacct multi-currency and consolidation features at any time. Tying in a payroll or CRM system? Sage Intacct has built-in modules to integrate with many best-in-class products such as Salesforce, ADP, and American Express. And if you have a custom product or homegrown system, you can integrate to these systems with Sage Intacct APIs.

A streamlined path to fast deployment

- Up and running in just 4 weeks
- A proven method based on best practices
- Delivered by Sage Intacct implementation experts
