

Sage Intacct Cloud Accounting Software for Home Health Organizations

Home health organizations face unique challenges, including changing regulatory requirements and the rise of new payment models like value based-care and the Patient-Driven Groupings Model (PDGM). These challenges not only increase financial complexities but bolster the need for healthcare finance leaders to have accurate and timely visibility into financial performance. To be successful, healthcare finance leaders need a comprehensive accounting solution that combines clinical, financial, and operational data that enables faster, more informed decision-making, reduces manual efforts, and creates efficiencies that improve margins and increase revenues.

Built for healthcare

As healthcare grows in complexity, so does your home health organization. You're managing multiple locations, navigating changing reimbursement methods and initiating cost reduction initiatives, while manual processes are draining your productivity. You need insight into your growing breadth of financial and operational data, and we've built our healthcare accounting software with you in mind. We provide

HIPAA-compliant financials with continuous consolidation across multiple offices, practices and locations. Sage Intacct healthcare customers have increased profitability by 30% with better insight for informed decisions, realized 25% improvement in efficiency gains, and taken departmental reporting from 10 days to 10 minutes.

Real-time visibility and insights

The Sage Intacct real-time reporting allows you to understand and measure performance for both financial metrics and operational outcomes. These metrics allow you to scale for growth and effectively manage multiple locations, reimbursements, and entities. Because every transaction in the system can be tagged with dimensions, finance professionals can sort, view, filter, and report on the specific information they need. With greater insight, our home health customers have reduced board budget reporting from three weeks to one hour and have improved revenue per provider by up to 6.5%.

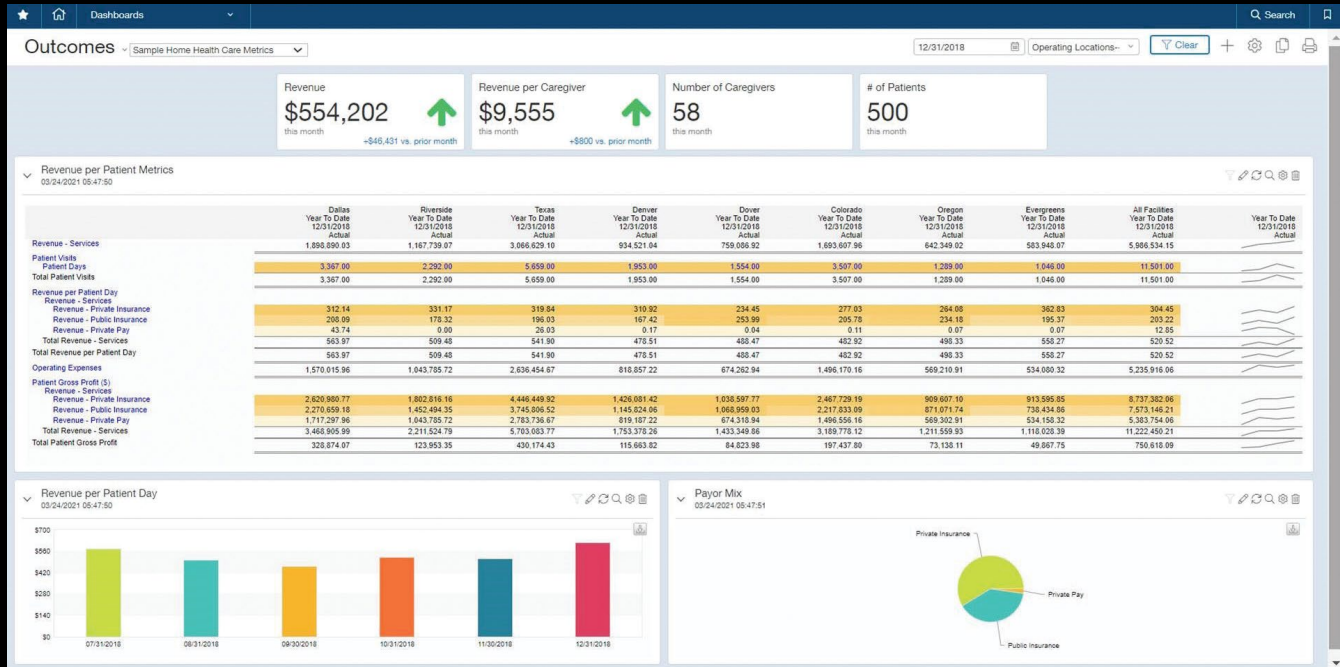

True cloud technology with open API

As an innovator in the cloud space, the Sage Intacct multi-tenant, true cloud foundation brings robust technology infrastructure to your organization, without the high costs of managing servers. Our open API lets you connect to existing systems or those you are considering in the future. This means you can leverage key data from electronic medical records, payroll, budget, CRMs (including Salesforce), and other systems to track key performance indicators.

Recognized by finance experts

- **AICPA:** We are the first and only preferred provider of the AICPA.
- **Gartner:** Sage Intacct received the highest score in [Core Financials for the Lower Midsize Enterprises Use Case in Gartner's Critical Capabilities Report](#) in 2021.
- **G2:** Sage Intacct has the highest customer satisfaction score for multiple accounting categories on G2, a leading business software review platform.
- **Avertium:** Sage Intacct security safeguards have been certified as HIPAA- and HITECH-compliant by Avertium. Sage Intacct will enter into a Business Associate Agreement with eligible healthcare organizations.
- **Healthcare Financial Management Association:** Sage Intacct has earned the designation of Peer Reviewed by the Healthcare Financial Management Association (HFMA). We are the only financial management solution to receive this designation.

Sage Intacct dashboards provide visibility into critical metrics for your healthcare organization—like role-based dashboards, revenue metrics, compliance, and more.

“Before Sage Intacct, our AP process was paper-based, manual, and required days of hand-offs, approvals, and filing of paperwork. Since implementing the Sage Intacct cloud-based accounting software, the AP process is now completed quickly and electronically. Not only are we handing invoices much faster, but we’re able to do it seamlessly with our team working remotely.”

Angie Bacon, Director of Finance and Accounting,
