Sage Intacct Cloud Accounting Software for Dental Practices

Built for data-driven healthcare organizations

Dental practices face unique challenges—from cost containment and multientity reporting to new billing models and product offerings—and a cloud-based accounting system allows you to better understand your organization and succeed in the future. As the need to use Protected Health Information (PHI) to understand the health of practices grows, so does the need to maintain HIPAA compliance and keep PHI secure—even in your financials. At Sage Intacct, we're passionate about building accounting software that helps you better understand your business, maintain HIPAA compliance, and succeed in the ever-evolving healthcare industry

Built for healthcare

As healthcare grows in complexity, so does your organization. You're managing multiple locations and practices, navigating changing reimbursement methods and initiating cost reduction initiatives, while manual processes are draining your productivity. You need insight into your growing breadth of financial and operational data, and we've built our healthcare accounting software with you in mind. We provide HIPAA-compliant financials with continuous consolidation across multiple offices, practices and locations. Sage Intacct healthcare customers have increased profitability by 30% with better insight for informed decisions, realized 25% improvement in efficiency gains, and taken departmental reporting from 10 days to 10 minutes.

Real-time visibility and insights

The Sage Intacct real-time reporting allows you to understand and measure performance for both financial metrics and operational outcomes. Because every transaction in the system can be tagged with dimensions, finance professionals can sort, view, filter, and report on the specific information they need. With greater insight, our dental customers have improved visibility of location and provider performance to achieve gross margin targets and improved revenue per provider by up to 6.5%.
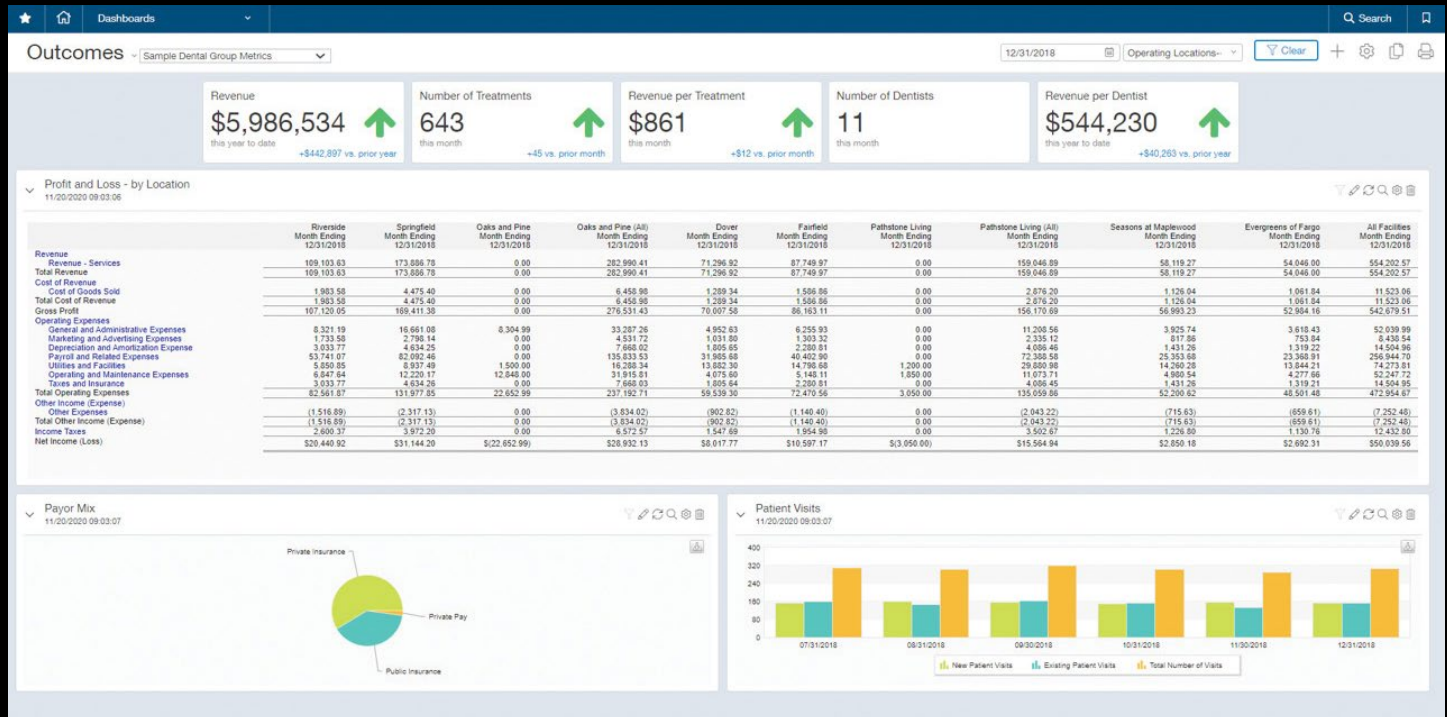

True cloud technology with open API

As an innovator in the cloud space, the Sage Intacct multi-tenant, true cloud foundation brings robust technology infrastructure to your organization, without the high costs of managing servers. Our open API lets you connect to existing systems or those you are considering in the future. This means you can leverage key data from electronic medical records, payroll, budget, CRMs (including Salesforce), and other systems to track key performance indicators.

Recognized by finance experts

- **AICPA**: We are the first and only preferred provider of the AICPA.

- **Gartner**: Sage Intacct received the highest score in **Core Financials for the Lower Midsize Enterprises Use Case in Gartner's Critical Capabilities Report** in 2021.

- **G2**: Sage Intacct has the highest customer satisfaction score for multiple accounting categories on G2, a leading business software review platform.

- **Avertium**: Sage Intacct security safeguards have been certified as HIPAA- and HITECH-compliant by Avertium. Sage Intacct will enter into a Business Associate Agreement with eligible healthcare organizations.

- **Healthcare Financial Management Association**: Sage Intacct has earned the designation of Peer Reviewed by the Healthcare Financial Management Association (HFMA). We are the only financial management solution to receive this designation.

Sage Intacct dashboards provide visibility into critical metrics for your dental practice—like revenue per treatment, revenue per dentist, patient visits, compliance, and more.
